STATE OF MAINE.

CUMBERLAND SS.

*To Willard Lamb, a Constable in the town of Windham,
in said County.*

GREETING :

In the name of the State of Maine, you are hereby required to notify and warn the inhabitants of the said town of Windham, qualified by law to vote in town affairs, to assemble at the town house in said town, on Monday, the fifth day of March, A. D., 1906, at eight o'clock in the forenoon, to act on the following articles, to wit :

- 1st. To choose a Moderator to preside at said meeting.
- 2d. To see if the town will vote to elect one or more Road Commissioners.
- 3rd. To choose all necessary town officers. Polls to open at 8 o'clock A. M. and close at 1.30 o'clock P. M.
- 4th. To see if the town will vote to accept the report of the town officers.
- 5th. To see what sum of money the town will raise for the repair of roads and bridges.
- 6th. To see what sum of money the town will raise for improvements on State road.
- 7th. To see what sum of money the town will raise for support of poor.
- 8th. To see what sum of money the town will raise for contingent expenses.
- 9th. To see what method the town will adopt to collect the taxes, and what discount they will allow, if any.

10th. To see what sum of money the town will raise to pay Collector's commissions, abatements, and discounts.

11th. To see what per cent. the town will vote to allow the Collector for collection of taxes.

12th. To see what sum of money the town will raise to pay town officers.

13th. To see what sum of money the town will raise to pay town debt.

14th. To see what sum of money the town will raise to pay interest on town debt.

15th. To see what sum of money the town will raise to pay outstanding bills.

16th. To see what sum of money the town will raise for the observance of Memorial Day, the same to be expended by Larry Post, G. A. R.

17th. To see what the town will vote to pay the Superintendent of Schools per day and how much for travel.

18th. To see what the town will vote to pay the Road Commissioners per day and how much, if anything, for travel.

19th. To see if the town will vote to raise one hundred and forty-six dollars and forty cents (\$146.40) to pay interest on local school fund.

20th. To see what sum of money the town will raise for support of schools.

21st. To see what sum of money the town will raise for support of free high school.

22d. To see what sum of money the town will raise for text books.

23rd. To see what sum of money the town will raise for fuel for schools.

24th. To see what sum of money the town will raise for supplies for schools.

25th. To see what sum of money the town will raise for the repair of school buildings.

26th. To see if the town will vote to continue the White school (so called) the coming year.

27th. To see what sum of money the town will raise for the care of cemeteries.

28th. To see if the town will vote to authorize the Selectmen and Treasurer to make a temporary loan in anticipation of taxes, if needed.

29th. To see if the town will vote to sell a certain lot of land on the east shore of Sebago Lake and near the Brazier place, so called.

30th. To see if the town will vote to purchase more snow rollers and appropriate money for the same.

31st. To see if the town will vote to accept the recommendation of the S. S. Committee, in relation to the repair of the school house at Windham Center, and appropriate money for the same.

32d. To see if the town will vote to purchase a safe for the Town Clerk and Treasurer, and appropriate money for the same.

33rd. To see if the town will vote to erect buildings for the storage of snow rollers, and appropriate money therefor.

The Selectmen will be in session at their office on Thursday, Friday and Saturday, March 1st, 2d and 3rd, from 1 to 5 o'clock P. M. for the purpose of correcting the list of voters.

Given under our hands at Windham this first day of February, A. D., 1906.

GEORGE A. NEWELL,
GEORGE F. JORDAN,
ALMANZER KALLOCK, } *Selectmen
of
Windham.*

Note held by D. W. Cram,	1000

H. H. BOODY, *Auditor.*

School Report.

To the Citizens of Windham:—

The following report of the public schools of Windham for the past year is respectfully submitted.

The number of children in town between the ages of five and twenty-one on April 1, 1905 was 477. The number of different pupils enrolled in the schools during the year was 365. The average attendance for the year was 276. The average for the year is 76 per cent of the total enrollment or 58 per cent of the whole number of persons of school age in town.

The number of pupils registered in the spring term was 314, the average attendance was 282 or 90 per cent of the number registered. The number registered in the fall term was 292, the average attendance was 260 or 89 per cent of the number registered. The number registered in the winter term was 327, the average attendance was 287 or 88 per cent of the number registered.

There were 230 visitors in the schools in the spring term; three schools that had special exercises at the end of the term had 113 of these, leaving 117 for the other schools. In the fall term there were 139 visitors and in the winter term there were 89. What proportion of these visitors were children, I have no means at hand of determining; judging from my own experience, I should say one-half. If we should go still further and seek to learn how many were male citizens, parents of pupils, we should find the number to be very small indeed. The Superintendent has made about 100 visits to the schools and that number should be taken from the figures given above. This is not as it should

be; special exercises, prepared for the occasion are interesting and should be attended, but the every-day work of the school is what counts and is what every father and mother having a pupil in the schools should make an effort to observe.

Our schools as a whole have been prosperous, some of them particularly so. The Ireland school, because of having had three teachers during the year, has been the least successful of any of the schools. So far as possible the S. S. Committee have kept the same teacher in a school during the year. Miss Nash would have been kept in the Ireland school if we had felt that we could afford to pay her the wages that she felt she was worth and without doubt was worth. It is now easy to see that it was false economy in not keeping her at the wages she desired. The other teachers in that school have done as well as could be expected considering their short stay.

The White school is now very small, only seven pupils in the neighborhood. I would recommend that that school be suspended for the present and the pupils transferred to the Center or Knight school.

Perhaps a word of explanation with regard to the length of the schools may be needed, although to those who were present at the time the money was appropriated it will not be necessary. For the year 1904-5 the amount appropriated was \$2,500, there was an unexpended balance from the previous year of \$400 and the appropriation was overdrawn \$200; not considering the amount received from the State which did not differ materially from the amount received for the year 1905-6. This made \$3,100 of the town's money

spent for the schools during the year 1904-5. The length of the schools for that year was 31 weeks. During the past year 1905-6, the appropriation was \$2,500, with a charge against it of \$200, overdrawn from the year 1904-5, making the amount of the town's money available for schools as \$2,300. The length of the schools has been 26 weeks.

Except for an error in an amount which I have not considered above, and for which no one but myself is responsible, the length of the schools during the past year might have been 27 weeks, that is, one week longer. In determining the length of the winter term, I failed to record on the books the \$146.40 that the town appropriates each year for interest on the local school fund. This amount would have paid for the schools for another week. I am very sorry for the error, but can do nothing now except to ask pardon for it.

New seats have been provided for the Knight and Hill schools and the seats that were removed from the Ireland school, after being thoroughly repaired, have been placed in the Plains schoolhouse; they now need to be sandpapered and varnished. The Plains and Hill schoolhouses have been painted inside and the Arlington schoolhouse outside and the needed repairs have been made in them.

During another year the John A. Andrew schoolhouse especially should be painted outside and some of the other buildings need painting almost as much. The Knight schoolhouse should be painted inside as should also the Friends'. Several of the buildings require patching in the plastering, and the blockings under the Ireland house have settled and must be attended to.

The following is the recommendation of the S. S. Committee with regard to the brick schoolhouse at Windham Center:—

"We recommend that the town appropriate money for putting the Windham Center schoolhouse into thorough repair inside and outside". They estimate the cost to be \$400.

There is about \$125 of the appropriation for books for the year that is unexpended, I recommend that \$50 or \$75 of it be used for the purchase of Dictionaries for the schools

The High, Arlington and John A. Andrew schools need the International Dictionary and the other schools, except those that are already provided with them, need the Collegiate Dictionary. The small geographies in use in our schools are worn out, so that it will be necessary to provide a new supply either of the same or another kind.

The supplies account has been drawn upon during the year in purchasing Blackboard, Maps and an Industrial Nature Cabinet that were not contemplated at the time of the Annual Meeting, yet the appropriation is not largely overdrawn. I feel that the maps have already paid for themselves and feel sure that the Nature Cabinet will, as soon as it can be divided and distributed to the schools.

During the fall term printed excuse slips were furnished to the teachers to be sent to parents for their signatures when a pupil was absent. I did not feel that anything was accomplished and discontinued the distribution of the slips in the winter term.

All the parents who have children in school have had a chance to examine the course of study prepared by the Superintendent and adopted by the S. S. Committee. It is a very difficult thing to prepare a satisfactory course of study where none has previously existed; it is much easier to criticise one that has been used for a time and its faults made manifest. I know already that this one has faults and that more will develop as it is used, but it will be a basis upon which some future Superintendent may build a better one.

The S. S. Committee at a meeting held July 29 voted that, after the close of this municipal year, they would elect no married women as teachers unless they be dependent upon teaching as a means of livelihood.

So far as I have heard, all of our teachers who took the State Examination held at the town house last summer secured State Certificates. Some for life and some for shorter terms.

The requirements for admission to the high school or to the E class of the Arlington or John A. Andrew school are

Arithmetic, Grammar, Geography, U. S. History, Elements of Physiology, and History and Civil Government of Maine completed. Also that the pupil shall pass an examination prepared by the Superintendent, in these studies, in which examination he shall obtain a rank of not less than 55 per cent in anything and an average rank in the whole examination of 70 per cent with close ranking.

The Superintendent recommends that the following amounts be appropriated at the annual meeting:—

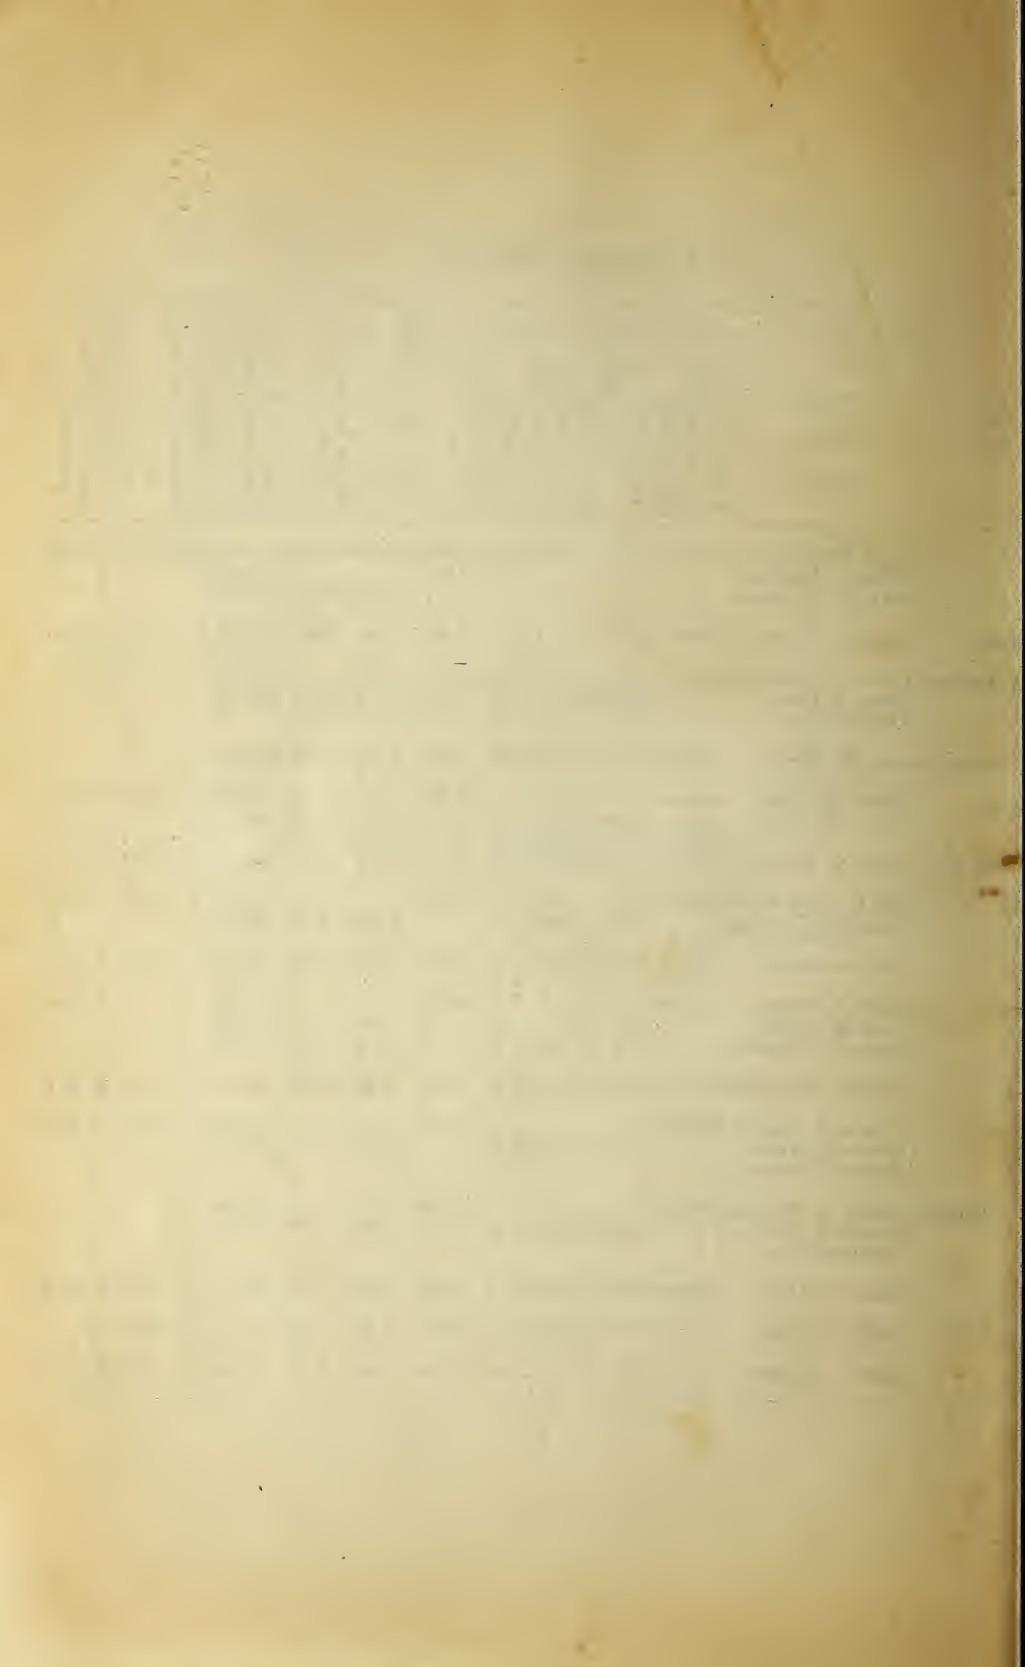

For common schools,	\$2,500 00
" high school,	500 00
" text books,	200 00
" supplies,	225 00
" Repairs, other than on Windham Center schoolhouse,	400 00
" janitors,	50 00
" fuel,	300 00

All of which is respectfully submitted,

CLARENCE W. PROCTOR,
Superintendent.

C. B. WALKER.

Personal.

Whatever may be said in this report against the methods of the past administration in their method of transacting the town business, it is not intended to cast reflection on their honesty or business integrity, or their good intentions, for we honor and respect them as the leading citizens of the town ; but it is done that the future administrations may be spurred on to better methods of business, that the citizens of the town may reap the benefits of better business methods in town affairs. What methods we have found that were correctly applied we have only been too glad to follow, but there were methods found that were entirely wrong ; therefore we shall criticise the past and the present administration in what we believe to be wrong and tell you the needs of the town for the future.

FINANCIAL.

For the first time in the history of the town, as far as known, we have the pleasure of announcing to you that the last dollar of interest bearing debt has been paid, amounting to \$1,882.51, principal and interest. We congratulate you that the burden has been lifted from you. We take special pride in the transaction because it has been paid without assessment and still leaves a good working balance of \$3,119.00 of cash in the treasury and resources of \$9,385.-00, and your rate of taxation has been reduced from \$18.80 in 1905 to \$13.00 on \$1,000.00, for 1906.

VALUATION OF THE TOWN, 1906.

A very careful examination was made of the valuation of the town, made by the previous assessors, also their

methods of transferring the property from one year to the next. We not only found the valuation very wrong in our judgment, but the method of transferring from one year to the next entirely wrong, working great injury to the citizens of the town. Therefore we determined to go to the bottom and start anew, fully determined that each piece of property should bear its just burden of taxation and no more. The property below shows the property that has been found in our investigation which should have been taxed in 1905 and years before but never taxed.

Valuation, 1906

19 cottages and lots of land on Highland, Great

Sebago and Little Sebago Lake,	\$4,350 00
3 sets of buildings at Newhall,	5,000 00
Sarah Freeman, lot of land, 30 acres,	175 00
S. R. Freeman, " 15 "	75 00
Albion L. Shaw, " 10 "	100 00
Peter Stuart Est., " 4 "	50 00
H. W. McCausland, " 6 "	300 00
<hr/>	
Total valuation found not taxed,	\$10,050 00

The following property has been found dropped off by the previous assessors and not taxed in 1905, but was discovered and taxed in 1906, as follows :

Value, 1906

Charles B. Brackett, lot of land, 46 acres,	\$1,050 00
Albert Strout, " 37 "	400 00
Nathaniel Wilson, " 10 "	50 00
Royal Tyler Est., store and tenement at So. Windham,	1,350 00
Mary E. Thayer, store and tenement at So. Windham,	600 00
John C. Mayberry Est., lot of land, 10 acres,	225 00
Elbridge Stiles, " 13 "	250 00
W. Young, " 10 "	100 00
W. Young, " 3 "	25 00
<hr/>	
Total of property not taxed and dropped off,	\$14,100 00

Tax would have been, 1905,	\$265 08
Walter J. Huston, lot of land dropped off 1892,	
46 acres, value, \$600.00. Loss in taxes 14 years,	147 00

Loss to the town for 1905 and the Huston property, to say nothing of the above property that has escaped taxation for the years before, \$412 08

We have given a great deal of thought and personal investigation to the valuation of 1906, as follows:

100 pieces of property have been personally examined.

182 pieces of property have been reduced to compare with the rest of the property.

14 pieces of property have been advanced of resident owners.

You will readily see that the resident owners have been fairly dealt with, while the non-resident owners have been brought to a true valuation with the property owner of resident property, and no more. It is a fact and can be plainly shown that the non-resident property, in many cases, has not been taxed for one-tenth of its actual worth, while the resident owner has been taxed for 25 per cent. more than its true value.

You will see by the property that has been dropped off that the method of the previous assessors was defective, therefore needed a radical change which has been done. It is of the utmost importance that all property should be entered and taxed, as no board of assessors has a right by law to tax property not taxed by the previous assessors for the year which it was not taxed, which means the entire loss to the town for the years that the property was left off.

For your information and that each piece of property shall receive its just valuation, you will find each person taxed, each piece of property, real and personal, number of acres and the total tax in the back part of this report. Please examine very closely and if you find errors in acres or value be sure to report to your assessors for 1907.

STATE VALUATION OF WINDHAM.

The assessors of Windham rendered under oath a sworn valuation of Windham under penalty of perjury, but without investigation. But with a few strokes of a pen the State assessors have added a fictitious valuation of \$91,000.00, which makes an additional State and County tax of \$384.35 annually, above the real value of the town. We have the valuation of each adjoining town as made by the State assessors before us, which shows rank discrimination in the valuation. One adjoining town shows nothing added to its valuation by the State assessors on real estate, while that town is 25 per cent. lower than Windham valuation on the same kind of property, and should bear the same valuation. 10 per cent. has been added to Windham, making Windham valuation 35 per cent. higher than one adjoining town, when Windham valuation should be the same.

We have taken the matter up with our representative at Augusta, which must be vigorously followed up when the State assessors meet in Portland for a public hearing, with a strong determination that Windham shall pay only a true and just State and County tax.

ROADS AND BRIDGES.

1905 the town instructed the selectmen to serve as road commissioners. They appointed 33 district surveyors to look after the roads; no boundaries were given except verbally. They also gave the surveyors a sum of money to care for the district, which would be only enough to do a small amount of repairs but no thorough work. No instructions were given to render a full statement of their expenditures, so that the town could be the judge whether good results had been accomplished or not. No settlements were made, so instead of the town being able to judge, we were called upon to pay \$689.64, worked out but not paid.

1906 you elected road commissioners by vote. Before they were able to get the roads well in hand several snow storms occurred, with the surveyors out and each district eliminated; hence the large cost of breaking of roads for

1906 of \$604.68, which is too large for the amount of snow.

We were fully satisfied that a different method was necessary, if the town is going to go back and forth from road commissioners, by the vote of the people, then the next year the selectmen or road commissioners, the town is not getting value from the money expended on roads. Road commissioners by vote and selectmen by instructions, with a change each year, will not give results for your money. You should either elect road commissioners each year for five years in succession, or let the selectmen serve as commissioners for the same length of time, before results can be definitely shown.

For the first time in the history of the town, you have a complete record of the expenditures on roads, showing fifteen districts with the boundaries; five under C. M. Elliott, five under Allen P. Leighton, five under S. Larrabee. Each district shows who worked and how much, and total amount. Each bill contracted has been presented and an order drawn, showing you the full expenditures. You haven't to face one dollar of outstanding bills but you have it before you, the actual expenditure in each district. Have you had your just due in each district? If not, ask the town officers why. If the same district system is kept up the report of 1908 will give you the exact cost of your snow bills, and the summer work for 1907, giving you a complete knowledge of each district for the future year.

We believe you should raise \$2,000.00 to be expended on the road beds of the several districts, and \$1,500.00 to be expended on bridges, culverts and permanent repairs. Under the above method each district would get its just due on its road bed, while the whole town should bear the burden of maintaining the bridges, culverts and permanent improvements, and not take the maintenance of bridges and culverts cut off the appropriation for the several districts.

We have expended a large sum on bridges for the last year, but you have the total cost before you. The following bridges have been repaired: Eelweir, Narrows, Kemps, Leavitts and Newhall have been newly planked; Narrows

and Newhall have had new stringers. The high price of lumber makes a tremendous expense for the maintenance of bridges. The following bridges need planking the coming years, Great Falls, Anderson, and perhaps two smaller bridges. The following large culverts will have to be built the coming year, Franklin, Maxfield and Otter Brook, below Stephen Page's house.

1905 the town selected a committee to serve with the selectmen to re-locate the road around Tukey Hill, or cut the hill down. It was decided to go around the hill and the county commissioners laid the road out; but it was found, on examination, that they had laid the road up so close to the ledge that the expense of blasting, for the ditches and the building of a culvert, and a long retaining wall to hold the road bed on the south side of the road, would cost more than to build it straight. So we petitioned the county commissioners to annul their proceeding, which was done. We have done a very good job, showing a great improvement.

OUTSTANDING BILLS.

The past method of allowing bills to remain outstanding until presented has worked great injury to the town. Enough money has been raised to pay town debt that has gone to pay outstanding bills to pay the town debt twice over in years past. Unless the bills contracted have been paid how can the citizens of the town tell where the town stands? You raised \$1,000.00 in 1906 to pay outstanding bills and we have paid \$2,304.95, leaving \$1,304.95 to be paid without appropriation, which we have done, but we have put a complete stop to such methods. You have in this report all the bills contracted for 1906, except two poor bills which haven't been fully adjusted, one road bill which is under investigation and bills for school books which came to the treasurer too late for payment, of about \$200.00. We intended to have had every bill paid, but the above could not be closed in time. For fear there may be some old bills of the last administration that we have failed to

reach, we have estimated them, all told, at \$600.00. No appropriation will be asked for except snow bills for outstanding.

TOWN FARM AND OUTSIDE POOR.

Our experience for the last year has demonstrated to us that in the management of the poor, both off and on the farm, cannot be successfully carried on unless the superintendent and his contract is in the interest of the town. The contract made by the previous board of overseers of the poor made it compulsory for the town to fulfill certain conditions which completely tied the intended action of the present board. While we believe that it should be fortunate for the poor that they fell to the care of the overseers of the poor of Windham, their burden of maintenance should not be allowed to go to such an extent that it would be unfortunate for the taxpayer that he lives in Windham. We have made a radical change in the contract as soon as conditions would warrant. We have hired the present superintendent and matron to serve from Feb. 1, 1907 to April 1, 1908. The superintendent and matron come well recommended by the overseers of poor of an adjoining town, where they served two years. We pay them \$300.00 for 14 months service, then the selection of superintendent and matron would come under a board of overseers elected in 1908. If they fail to give satisfaction the board would have a chance to make a change for the better. We anticipate good results from their labor, but it is the duty of the overseers of the poor to watch carefully to see that everything is done for the interest of the town, that better results may be obtained than those of the past.

CHARLOTTE COBB ROAD.

1904 the selectmen laid out a road across the land of Charlotte Cobb. The town voted to build the road and raised \$50.00 for the same, but the selectmen failed to make return to the town clerk or to assess the damage. No article

was in the warrant to pay damage or accept the road, so we were compelled to go over the whole matter again, which we have done according to law, with an article in the warrant to accept the road and one to pay the damage. You have already raised the money to build the road.

ANDROSCOGGIN PULP CO.

Androscoggin Pulp Co. requested the selectmen to call a town meeting to see if the town would exempt them from taxation for a term of ten years for all improvements made on their property at So. Windham. Brunswick and other towns had offered to exempt them from taxation. Your selectmen took the matter up with the company, and at three conferences with the directors convinced them that Windham had always treated the company fair and would always do so, while other towns might hold out the alluring offer for exemption for ten years; but at the end of that time might wish to swallow them whole. Our argument prevailed, which has given So. Windham its present boom. We rejoice with the people that we were able to bring about their prosperity and Windham an additional income of \$1,000.00 annually at once over the present company's tax.

STORAGE OF DYNAMITE.

The selectmen in 1904 gave permission to the Oriental Powder Co. to store 20 tons of dynamite at Newhall. That permission was entirely wrong. They exceeded their rights under the law. The general law of the State for the storage of explosives compels towns to make general regulations which must apply to each and every one. No discriminating power can be given any person or company. The regulations were made and posted according to law and at a proper time the company must comply, giving them proper time for the storage somewhere else than Windham. We consider the risk too great for the locality, to ask for the storage of 75 tons or more, and too great a menace to the development in that part of the town and its inhabitants.

LEGAL SERVICES \$78.50.

Henry W. Swasey, attorney for the town for the last year has given a great deal of professional service to your town official, for the last year, and his bill may seem to be large to you, as no suit was pending, but a great many matters have been taken up with Mr. Swasey, to be sure on our part that we were taking the correct position on the different matters that come before us, and we can assure you that the bill is reasonable for the amount of labor performed and the advice sound, and we heartily recommend him to our successors as an able counsellor and a true man for the town's interest.

FOREST FIRE.

On Sept. 5th a forest fire was started in the east part of the town. Help was called out to subdue it. The terrible drouth that was prevailing at that time and the continued high winds made it necessary to keep a crew of men both day and night to keep it from spreading. It was supposed by the selectmen that it would be almost impossible to get water into that section so that the only way was to guard the fire so it could not spread, but it was found later on that water could be got in a swamp near by and then the fire was put out. While the cost seems to be large, and perhaps it is, we have the satisfaction of knowing that the fire was kept in a small area, thereby saving that vast timber tract from destruction. It is very plain that if the town has got to be the guardian of non-resident property, the assessors should see that they are properly taxed to pay the expenses for the protection. The town now has been divided into three fire districts and fire wardens appointed. Our first experience shows that more energetic measures should be taken at once and not allow the fire to prolong but subdue it at once.

POLITICAL.

It is the duty of every voter in town to attend the annual town meeting, to give his aid to elect town officers that will give to the town inhabitants the greatest results for the money, for the carrying on of the different departments of the town, carefully guarding against every move made in your judgment that is against the interest of the town, then when the meeting is done you can say with a clear conscience I have done my part, then watch the results of your efforts.

STATE OF MAINE.

CUMBERLAND SS.

To Samuel Larrabee, a Constable in the town of Windham, in said County.

GREETING:

In the name of the State of Maine, you are hereby required to notify and warn the inhabitants of the said town of Windham, qualified by law to vote in town affairs, to assemble at the town house in said town, on Monday, the 4th day of March, A. D., 1907, at nine o'clock in the forenoon, to act on the following articles, to wit :

- 1st. To choose a Moderator to preside at said meeting.
- 2d. To see if the town will vote to elect one or more Road Commissioners.
- 3rd. To choose all necessary town officers. Polls to open at nine o'clock A. M. and close at 1.30 o'clock, P. M.
- 4th. To see if the town will vote to accept the report of the town officers.
- 5th. To see what sum of money the town will raise for the repair of roads
- 6th. To see what sum of money the town will raise for the repair of bridges, culverts and permanent improvements of roads.
- 7th. To see what sum of money the town will raise for improvements on the State road.
- 8th. To see what sum of money the town will raise for the support of poor.
- 9th. To see what sum of money the town will raise for contingent expenses.

10th. To see what method the town will adopt to collect taxes, and what discount they will allow, if any.

11th. To see what sum of money the town will raise to pay Collectors' commissions, abatements and discounts.

12th. To see what per cent. the town will vote to allow the Collector for collection of taxes.

13th. To see what sum of money the town will raise to pay town officers.

14th. To see what sum of money the town will raise to pay outstanding snow bills.

15th. To see what sum of money the town will raise for the observance of Memorial Day. The same to be expended by Larry Post, G. A. R.

16th. To see what the town will vote to pay the Superintendent of Schools per day.

17th. To see what the town will vote to pay the Road Commissioners per day and how much, if anything, for travel.

18th. To see if the town will vote to raise one hundred and forty six dollars and forty cents (146.40) to pay interest on local school fund.

19th. To see what sum of money the town will raise for the support of schools.

20th. To see what sum of money the town will raise for the support of free high school.

21st. To see what sum of money the town will raise for text books.

22d. To see what sum of money the town will raise for fuel for schools.

23rd. To see what sum of money the town will raise for supplies for schools.

24th. To see what sum of money the town will raise for the repair of school buildings.

25th. To see what sum of money the town will raise for the care of cemeteries.

26th. To see if the town will vote to authorize the Selectmen and Treasurer to make a temporary loan in anticipation of taxes, if needed.

27th. To see if the town will vote to sell a certain lot of land between the new and old road, near the Brazier place, so called.

28th. To see if the town will vote to purchase one or more snow rollers and appropriate money for the same.

29th. To see what sum of money the town will raise for the building of houses for snow rollers.

30th. To see if the town will vote to maintain a school in the White school house, so called, for the ensuing year.

31st. To see if the town will vote to instruct the assessors to discontinue the taxing of poll taxes at the age of seventy years.

32d. To see if the town will vote to procure a furnace for the town farm buildings and appropriate money for the same, or to repair buildings on the town farm.

33rd. To see if the town will vote to accept the road as laid out over the land of Charlotte Cobb by the Selectmen in 1906.

34th. To see if the town will vote to pay Charlotte Cobb fifty dollars as land damage for road over her land.

The Selectmen will be in session at their office on Thursday, Friday and Saturday, Feb. 28, March 1st and 2d, from 1 o'clock to 5 P. M. for the purpose of correcting the list of voters.

Given under our hands at Windham this first day of February, A. D., 1907.

Warrant not closed until Wednesday, Feb. 20th, 1907.

H. H. BOODY, } *Selectmen of*
A. KALLOCK, } *Windham.*

Respectfully submitted,

JOHN N. SWETT, *Treasurer.*

Auditor's Report.

I hereby certify that I have examined the books and papers from which the foregoing report of the town officers of Windham is made, and find them correct in computation and properly vouched.

All orders received and paid by the Treasurer are cancelled and placed on file in the Selectmen's office.

The notes held by D. W. Cram, (\$1200), and Mrs. Marion C. Larabee, (\$200), have been paid by the Treasurer, and were destroyed by me in the presence of the Selectmen and Treasurer, also two notes of Miss Martha T. Senter, \$165 and \$110.

A. R. HAWKES, *Auditor.*

Windham, Feb. 8, 1907.

School Report.

To the citizens of Windham:

The report of the condition of your schools at the present time is herewith rendered.

The number of children belonging in the town between the ages of five and twenty-one on April 1, 1906, was 466. The number of pupils registered in the schools during this year was 337, with an average attendance of 267 or 79 per cent., and of the whole enrollment, 57 per cent. Although the total attendance shows a slight decrease from that of last year, the average is practically the same.

Ninety-five visits have been made by the Superintendent during the past year. Judging from information at hand of previous conditions, I should say that the closing year stands not far behind any of the past in the efficiency of the public schools. The teaching in the common schools has been generally satisfactory, and, in several cases, exceptionally so.

But few repairs have been made and of the repairs account there is a balance on hand of \$349.13. While I have never questioned the wisdom of the appropriation I have felt that, the buildings being well equipped and suitably prepared for the comfort of the scholars, and there being a necessity of a larger overdrawal in the common schools account than the appropriation seemed to warrant and, moreover, that the winter term, with funds at hand must needs be extremely short, the advantages of the children could be increased by less attention to material improvements. Consequently the winter term was made longer by one week.

I regret very much that the children of the district schools are not permitted to receive as much instruction as

those more fortunate of other localities and trust that the citizens may deem it to their advantage to appropriate an increased amount such as will be necessary to furnish competent instruction for terms aggregating at least 34 weeks.

All of the schools have been in session for 28 weeks except those of the Anderson and Dodge districts. The former was unexpectedly shortened by one week of the last term, owing to the inability of the teacher to fulfil her engagement; the other was deprived of one week on account of contagious disease.

A word of explanation is in order with regard to the suspending of the White school. This school, I understand, was continued last Spring with less than the enrollment required ordinarily by law, by a special vote of the town. The school opened with an attendance of seven pupils which averaged less than half that number during the Fall term. The parents who were chiefly interested in continuing the school, having moved away before the close of the fall term, those who remained readily gave their consent to temporarily closing the school. The pupils were transferred to the Center school, the change meeting with no opposition and it has been regarded as reasonable and justified by all concerned. The teacher, Miss Clara A. Nash, was then employed to fill the assistant's vacancy at the John A. Andrews school.

The town is well supplied text books, although several introductions are still necessary owing to a modification of the course of study. Civil Government, not being a required study of the common schools has been dropped.

The outline of grade work instituted by your former superintendent, has resulted in more systematic work in the several schools, more uniform progress as a whole, and a great lessening of the number of classes, resulting in longer recitation periods. It has contributed more to the success of the schools than any other agency.

Referring to the shortage in school weeks, I wish to call attention to the fact that an assistant has been employed in the John A. Andrews school, for the past two terms at \$8.00

per week for the benefit of three pupils doing partial high school work. The enrollment of the school is 20 pupils. The value of this instruction is in proportion to its demand; for although the progress made has been excellent, pupils induced to attend a school of inferior high school facilities are wont to be contented with less than they should receive.

I recommend, therefore, that this course be suspended until the number of prospective pupils shall warrant the employment of an extra teacher and that this money, which cannot legitimately be expended from the common school funds for the maintenance of high school instruction, be dispensed among the needy district schools which, under present conditions, are deprived of less than a satisfactory amount of instruction.

THE HIGH SCHOOL.

Owing to the fact that a larger number of pupils appeared at the commencement of the fall term than had been anticipated, no provision was made for an assistant. It was at once apparent that an assistant was necessary and, to prevent loss of time, Mrs. F. E. Wood was employed until a permanent teacher could be procured. Shortly after Miss Jennie Cox was engaged.

The high school, during the fall term was subject to adverse criticism, partly founded on fact, alleging that the course of study employed was not of a quality required for standard grade and that, therefore, the school was liable to be dropped from the list of approved high schools aided by the State. The matter was thoroughly investigated. Although the course of study was defective in minor details the school officers were entirely exonerated since no official communication had been received to that effect. These statements, annoying and apparently detrimental to the school, have been productive of very beneficial results. While no change in the former course was held to be imperative, in order that there should be not the slightest reasons for discontent, it was stripped of many useful branches of study in order to comply fully with the 4-years

course of the average high school of standard grade. According to a statement of the State Superintendent of Schools the course which some of our citizens condemned as inefficient more than counter-balanced the minimum course required for high schools of standard grade. While, it was recommended by Mr. Stetson, the course was changed, the one then adopted has been used as a skeleton, about which there have been added enough extra studies for pupils not wishing to take the College course, the entire thus constituting two courses or double the amount required for standard high school work. Not only is this true but, as the following schedule will show, an attempt has been made to allow more recitations per week in the branches of primary importance. At the present time, in accordance with this change, the pupils are drilled much more thoroughly along the lines which they will find especially useful in after life.

The school lacks suitable apparatus for teaching physics and for this an appropriation of at least \$50 is indispensable.

Vital Statistics.

MARRIAGES.

1906

- Jan. 6, Colby G. Berry and Lucinda J. Hoyt.
- Feb. 8, Frank L. Byram and Julia Austin.
- March 3, Geo. C. Cannell and Fannie Bell Lord.
- March 10, Willis H. Pearson and Emma E. Beals.
- April 16, Freeman E. Jordan and Christine Purdue.
- April 23, Percy Hawkes and Catherine Smith.
- May 19, Martin V. Estes and Effie L. Jordan.
- May 29, Geo. A. Newell and Gertrude E. Carleton.
- June 16, Howard A. Files and Eva E. Elkins.
- July 20, Melvill L. Paul and Lizzie H. Nason.
- July 31, Frank E. Morrill and Flossie E. Mason.
- Aug. 11, Henry P. Leighton and Hattie L. Fogg.
- Aug. 18, Edward W. Skillin and Isabell C. Prince.
- Sept. 10, William A. Sawyer and Louie J. Nash.
- Sept. 11, Ivan W. Kennard and Louise Lamb.
- Sept. 16, Winfield Turtlott and Bessie J. Atherton.
- Oct. 3, Willard C. Libby and Bertha R. Welch.
- Oct. 1, Herbert Witham and Flossie Merrifield.
- Nov. 28, Elmer H. Hawkes and E. Ethel Hill.
- Dec. 22, John Smith and Effie G. Foster.

DEATHS.

1906

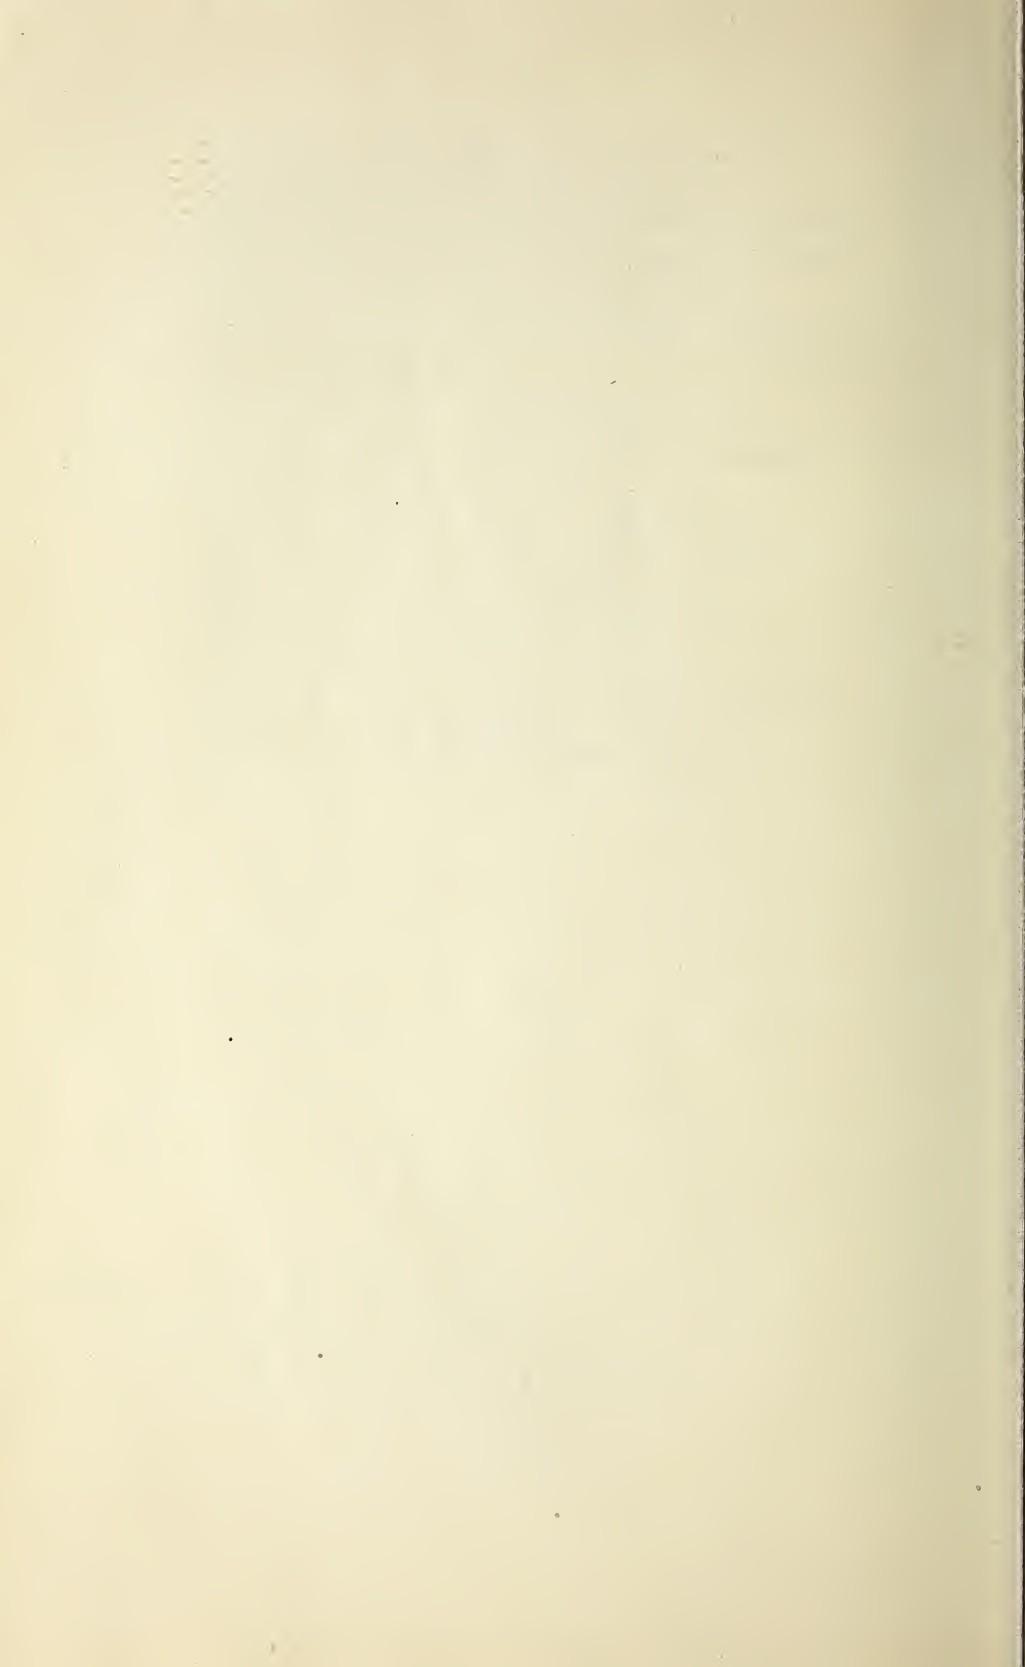

- Jan. 12, Son of Leadore and Lillian Varney, aged 28 days
- Jan. 23, William B. Brown, aged 91 yrs. 9 mos. 28 days.
- Feb. 6, Arthur Cannell, aged 21 days.
- Feb. 19, Mary A. Tarbox, aged 72 yrs. 8 mos. 10 days.

March 5, Marcia E. Elder, aged 29 yrs. 11 mos. 6 days.
 March 16, Mary J. Webb, aged 75 yrs. 9 mos.
 March 29, Sirvertren Christian, aged 69 yrs.
 April 4, Mary Ann Merrill, aged 71 yrs. 5 mos. 6 days.
 April 20, Abby A. Pratt, aged 46 yrs. 4 mos. 4 days.
 April 30, Abner L. Stevens, aged 79 yrs.
 May 5, Charles B. Tripp, aged 5 mos. 11 days.
 May 21, Albert L. Elder, aged 72 yrs. 3 mos. 10 days.
 May 29, Ida F. Manchester, aged 48 yrs. 4 mos. 18 days.
 June 4, James Ingram, aged 1 day.
 June 27, Ella D. Kemp, aged 75 yrs. 5 mos.
 July 2, Clyde F. Libby, aged 21 days.
 July 7, Marcia B. Hanson, aged 88 yrs. 10 mos.
 July 12, Jacob T. Day, aged 68 yrs. 7 mos. 9 days.
 Aug. 15 Francis W. Libby, aged 3 yrs. 7 mos.
 Sept. 13, Linwood P. Hamlin, aged 2 mos. 19 days.
 Sept. 9, Susan D. Copp, aged 50 yrs.
 Sept. 27, Susan G. Libby, aged 52 yrs. 11 mos.
 Oct. 7, Ellen Jordan, aged 85 yrs. 4 mos. 26 days.
 Oct. 21, Althea J. Wescott, aged 6 mos.
 Oct 28, Nancy B. Dolley, aged 84 yrs. 6 mos. 9 days.
 Nov. 4, Eliza Smith, aged 84 yrs. 11 mos. 3 days.
 Nov. 17, Rhea H. Elder, aged 71 yrs. 1 mos. 19 days.
 Dec. 1, Israel Morrill, aged 89 yrs. 6 mos. 22 days.
 Dec. 3, Jeranine Jacobson, aged 5 yrs. 2 mos. 14 days.
 Dec. 4, Sarah R. Robinson, aged 87 yrs. 6 mos. 11 days.
 Dec. 20, Geo. O. Lamb, aged 30 yrs. 9 mos. 18 days.

BIRTHS.

Jan. 18, to the wife of Benj. H. Durant, a son.
 Jan. 16, to the wife of Charles F. Cannell, a son.
 Feb. 14, to the wife of Irving J. Sargent, a son.
 Feb. 22, to the wife of Gilbert F. Roberts, a son.
 Feb. 26, to the wife of Nelson B. Cobb, a daughter.
 March 27, to the wife of Osman Libby, a son.
 March 30, to the wife of James E. Field, a daughter.
 April 7, to the wife of Walter B. Hall, a daughter.
 April 9, to the wife of Ralph Lamb, a daughter.

April 16, to the wife of Ellsworth L. Manson, a son.
April 20, to the wife of Herbert F. Hill, a son.
April 26, to the wife of William H. Wescott, a daughter.
May 7, to the wife of Wesley M. McLellan, a daughter.
May 8, to the wife of Thomas O. Libby, a son.
May 10, to the wife of Frank E. Witham, a daughter.
May 30, to the wife of Charles W. Hawkes, a daughter.
June 4, to the wife of Thomas J. Ingram, a son.
June 12, to the wife of Alton B. Libby, a son.
April 21, to the wife of James E. Aikins, a daughter.
June 21, to the wife of Geo. H. Irish, a son.
July 23, to the wife of Eugene L. Morrill, a son.
August 6, to the wife of Henry W. Moore, a son.
Sept. 4, to the wife of Frank E. Morrill, a son.
Sept. 10, to the wife of Frank S. Sawyer, a son.
Oct. 8, to the wife of Wm. K. Foster, a son.
Sept. 12, to the wife of George P. Akers, a daughter.
Oct. 16, to the wife of Laforest Walker, a son.
Oct. 31, to the wife of M. H. Rogers, a daughter.

STATE OF MAINE

CUMBERLAND SS.

To SAMUEL LARRABEE, *a constable in the town of Windham,
in said County.*

GREETING:

In the name of the State of Maine, you are hereby required to notify and warn the inhabitants of the said town of Windham, qualified by law to vote in town affairs, to assemble at the town house in said town, on Monday, the 2d day of March, A. D., 1908, at nine o'clock in the forenoon, to act on the following articles, to wit:

- 1st. To choose a Moderator to preside at said meeting.
- 2d. To see if the town will vote to elect one or more Road Commissioners.
- 3rd. To choose all necessary town officers. Polls to open at nine o'clock A. M., and close at 1.30 o'clock, P. M.
- 4th. To see if the town will vote to accept the report of the town officers.
- 5th. To see what sum of money the town will raise for the repair of roads in the several districts.
- 6th. To see what sum of money the town will raise for the repair of bridges and culverts.
- 7th. To see what sum of money the town will raise for the payment of snow bills.
- 8th. To see what sum of money the town will raise for State road.
- 9th. To see what sum of money the town will raise for support of poor.
- 10th. To see what sum of money the town will raise for contingent expenses.

11th. To see what method the town will adopt to collect taxes, and what discount they will allow, if any.

12th. To see what sum of money the town will raise to pay Collector's commissions, abatements and discounts.

13th. To see what per cent. the town will allow the Collector for the collection of taxes.

14th. To see what sum of money the town will raise to pay the town officers.

15th. To see if the town will vote to put a water system into the town farm buildings and appropriate money for the same.

16th. To see what sum of money the town will raise for the observance of Memorial Day, the same to be expended by Larry Post, G. A. R.

17th. To see what the town will vote to pay the Superintendent of Schools per day.

18th. To see what the town will vote to pay Road Commissioners per day and how much, if anything, for travel.

19th. To see if the town will vote to raise one hundred and forty-six dollars and forty cents (\$146.40) to pay interest on local school fund.

20th. To see what sum of money the town will raise for support of schools.

21st. To see what sum of money the town will raise for support of free high school.

22d. To see what sum of money the town will raise for text books.

23rd. To see what sum of money the town will raise for fuel for schools.

24th. To see what sum of money the town will raise for supplies for schools.

25th. To see what sum of money the town will raise for repairs of school buildings.

26th. To see what sum of money the town will raise for janitors' services.

27th. To see what sum of money the town will raise for care of cemeteries.

28th. To see if the town will vote to authorize the Selectmen and Treasurer to make a temporary loan in anticipation of taxes if needed.

29th. To see if the town will vote to purchase a road machine and appropriate money for the same.

30th. To see if the town will vote to enlarge the Smith cemetery, near Windham Center, and appropriate money for same.

31st. To see if the town will accept the list of jurors as made by the Selectmen and Town Clerk.

32d. To see if the town will vote yes or no upon the adoption of the provisions of Chapter 112 of the Public Laws of Maine, for the year 1907, relating to the appropriation of money necessary to entitle the town to State aid for highways for the year 1908.

33d. To see if the town will raise, appropriate and set apart for the permanent improvements of the main highways within the town, such sum of money as is contemplated and directed by Section 5 of Chapter 112 of the Public Laws of Maine for the year 1907. being the sum of one hundred and thirty-seven dollars (\$137).

34th. To see if the town will vote to build a high school building at Windham Center and appropriate money for the same.

The Selectmen will be in session at their office on Thursday, Friday and Saturday, Feb. 27, 28 and 29. from 1 o'clock to 5 P. M., for the purpose of correcting the lists of voters.

Given under our hands at Windham this fourth day of February, A. D., 1908.

Warrant not closed until Wednesday, Feb. 20, 1908.

H. H. BOODY,

A. KALLOCK,

J. L. ROBINSON,

Selectmen of Windham.

**Orders Drawn for Breaking and Labor on Roads, 1907,
under Selectmen.**

JOHN N. SWETT, *Treasurer.*

Auditor's Report

I hereby certify that I have examined the books and papers from which the foregoing report of the town officers of Windham is made and find them correct in compilation and properly vouched. All orders received and paid by the Treasurer are cancelled and placed on file in the Selectmen's office.

Note favor of H. H. Boody as temporary loan for one thousand dollars (\$1,000) without interest dated July 20, 1907 was paid by Treasurer on Nov. 30, 1907 and has been destroyed by me in the presence of the Selectmen and Treasurer.

FRED S. HAWKES, *Auditor.*

School Report

To the citizens of Windham:

A report of the condition of your schools for the past year is herewith submitted.

The number of children belonging in town between the ages of five and twenty-one on the first day of April, 1907, was 474, which shows a slight increase from the census of 1906.

The schools as a whole have been very successful, although such teachers as our schools demand are very scarce and wages high. For this reason the S. S. Committee have been obliged to secure the services of one inexperienced teacher.

The S. S. Committee have felt the need of better methods in the teaching force and therefore have bent their energies in that direction and have secured trained teachers to quite an extent. These teachers bringing into the schools new ideas and methods have given those schools a new impetus that must produce the desired effect.

The fall term at the John A. Andrews school was closed at the end of the eighth week by the Board of Health, on account of diphtheria in the village. Of course a disease of this nature has a detrimental effect on a school but the efficiency of the teachers has regained the interest of the pupils and excellent work is being done. The White school is very unfortunate in its small number of scholars, not having during the winter term the number required by law to maintain a school; but by a vote of the town at its last annual meeting the S. S. Committee were powerless to act.

Our schools are suffering from a lack of interest on the part of parents in not visiting our schools often. Most

of the trouble would be obviated in this way and pupils' interest aroused to a better working condition.

During the spring term a teachers' meeting was called at the high school building by the superintendent for the purpose of discussing methods and amount of work required in the different schools. Also during the fall term a lecture was given by H. H. Bryant at the high school building on, "Teaching Geography." Nearly every teacher was present and much interest shown.

The financial report shows that most of the appropriations were sufficient for the demands and a small balance remaining.

The book account shows a small deficit on account of the constant demand for new books to replace worn out ones. Also there has been an extra expense resulting from the change of readers which was begun last year.

The school at Windham Center is laboring under disadvantages in being located as it is over a store. Therefore the S. S. Committee recommend that the town provide a suitable building.

There has been but little truancy the past year, which may be attributed in part to the faithful action of the truant officer.

The Public School Laws of Maine relating to truancy are very exacting in their requirements as is shown by the following sections.

Sec. 52. If a child without sufficient excuse, shall be absent from school at six or more consecutive sessions, shall absent from school at six or more consecutive sessions, during any term, he shall be deemed an habitual truant and the S. S. Committee shall notify him and any person under whose control he may be that unless he conforms to section forty-nine, the provisions of the two following sections will be enforced against them; and if, therefore, such child continues irregular in attendance, the truant officers or any of them shall when so directed by the School Committee or superintendent in writing, enforce said provisions by complaint.

Sec. 53. Any person having control of a child, who is an

habitual truant, as defined in the foregoing section, and being in any way responsible for such truancy, and any person who induces a child to absent himself from school, or harbors or conceals such child when he is absent shall be punished by a fine not exceeding twenty (\$20) dollars or shall be imprisoned not exceeding thirty days.

Sec. 54. On complaint of the truant officer, an habitual truant, if a boy, may be committed to the State School for Boys, or if a girl, to the State Industrial School for Girls, or to any truant school that may hereafter be established. Police or Municipal courts or trial justices shall have jurisdiction of such complaint and of the offences described in section forty-nine, fifty-one and fifty-three. All warrants issued by said courts or trial justices, upon such complaint, or for an offence committed under said sections, and all legal processes issued by said courts or trial justices for the purpose of carrying into effect the provisions of this section and of said sections numbered forty-nine, fifty-one and fifty three, may be directed to and executed by the truant officer, or either of the truant officers of the town where the offence is committed. All fines collected under said two last sections shall be paid to the Treasurer of the city or town in which the offence is committed, for the support of the public schools therein.

THE HIGH SCHOOL.

As shown by last year's report the high school was placed in the list of standard schools after a thorough investigation by former State Superintendent W. W. Stetson, and has also been approved as such by the present State Superintendent, Payson Smith.

The spring term was taught by Mr. F. E. Wood and Miss J. C. Tubbs. Both were efficient teachers possessing character and ability capable of arousing in the pupils an ambition for moral and intellectual growth.

The fall term was taught by Mr. Herbert W. Hall and Miss N. Maude Donnell. Both were well equipped intellectually and the school made good progress under their instruction. At the close of the term Mr. Hall resigned.

his position and Mr. John B. Sawyer was elected to fill the vacancy. Mr. Sawyer is a thorough scholar and a very enthusiastic teacher, imparting to the school courage and hopefulness that insures the best results.

At a meeting of the S. S. Committee it was decided that no class should graduate from Windham high school without class exercises, participated in by individuals of the class.

Dec. 13, to the wife of Wm. Paron, a son.
Dec. 5, to the wife of Almon Manchester, a daughter.
Dec. 23, to the wife of James A. Drinkwater, a son.
Dec. 23, to the wife of Alfred J. Little, a son.
Dec. 10, to the wife of Jess Wilds, a daughter.

Financial

On Feb. 1, 1908, the town Treasurer had on hand over \$10,000 in cash, all running expenses paid with the exception of \$150, owed in the several departments, and school expenses for the last term of about \$1,500. You will readily see that the town is in a very strong financial position. How shall we use this fund? With a proper revaluation at Newhall and using \$2,000 of the cash on hand and with the sum of \$800 that comes to the school from the State extra over the amount of 1907 will give each department of the town the same amount for expenditure in 1908 that was raised in 1907 and make the rate \$10 on each 1,000 of valuation; or the town can make the same amount of assessment as 1907 and make the rate \$13 on \$1,000 of valuation, if the revaluation is properly made, and not use any of the surplus cash.

TOWN HOME FOR THE POOR.

The town's home for the poor under the management of Mr. Fred Ward and wife during the past year has been of the highest order, the large increase of farm productions raised over the previous year and the increase of farm stock, and of a higher grade; the better market for butter with increase of price and the large gain in the amount of butter produced from a smaller number of cows; with a cut in the salary of \$500 in 1906 to \$257 in 1907, has made a wonderful change in the financial standing of the farm. All expenses, including salary of the superintendent and matron, have been paid leaving a balance of \$22.89 against the farm. The financial showing and the fine condition of the stock show at once that Mr. Ward is the

man for the place. No words of ours can express our appreciation of the economy, the utmost cleanliness of the inmates and house and the general management of the house by Mrs. Ward, the matron. It surely is of the highest order and we invite public inspection of the premises..

HOT WATER HEAT FOR TOWN HOUSE.

The town at the last annual meeting voted \$300 for heat for the town farm building. We received bids from \$390 to \$750, but after considering all bids decided that it was for the interest of the town to accept the bid of Mr. Wheeler at \$600, which heats the entire house from top to bottom if needed.

TOWN EXPENSES FOR 1907.

Town expenses for 1907 may seem to be unreasonably large for the past year but you should bear in mind that the full expenses for 1907 and any outstanding bills for 1906 are included, making the total cost before you for your examination. We fully believe that the municipal year should run from Jan. 1, to Jan. 1, all bills to be presented and an order drawn. So you can readily see the entire cost of all town expenses, thereby putting a stop of allowing bills to go unpaid to be paid by the next administration with an appropriation for outstanding bills.

SUPPORT OF OUTSIDE POOR, 1907.

You have in this report every charge of a permanent support entered each by themselves, so you can readily see the total cost for the last year and any bills previous. You will readily see that the cost of the support of the outside poor is far too expensive. We have the town home thoroughly heated with hot water heat, comfortable at all times for any case that becomes a temporary or permanent charge and we fully believe that all persons who become a permanent charge should be removed to and supported at the town home, thereby putting a stop to discrimination. But all should be treated alike. It was our intention when

the house was properly heated to remove all cases not exempted by law, but because some have been helped for years an objection was made by some of the citizens of the town against their removal. Therefore, we have inserted an article in the warrant for the town to take action, the question at issue is shall all permanent town charges other than soldiers and family, exempted by law, be supported at the town's home or shall favoritism be shown, some to be taken to the town home and others to be supported outside at an increased cost. For your information we have caused to be printed the soldier law showing you what the Overseers of the Poor are obliged to comply with. By the remarriage of the widow of L. D. Libby soldier, we were obliged to care for his minor children at an expense of \$3.00 per week until their pension and hers could be transferred to them. We are now paying the following charges for the support of soldiers and their family. Joseph A. Graffam and family, rent, at \$2.00 per month. Edward Manchester, rent, at \$2.00 per month. Charles E. Kemp, medical attendance, if any. Minors of the late Daniel Libby, \$4.00 per month. Thomas Lakin, unmarried, dependent son of John Lakin, \$3.00 per week.

SOLDIER LAW.

Section 9. No soldier or sailor who served by enlistment in the army or navy of the United State in the war of Eighteen Hundred and Sixty-one, or in the war with Spain, and who has received an honorable discharge from all enlistments in said service whether in his own proper name or an assumed name, and who has or may become dependent upon any town, shall be considered a pauper or be subject to disfranchisement for that cause; but the time during which said soldier or sailor is so dependent shall not be included in the period of residence necessary to change his settlement; and Overseers of the Poor shall not have authority to remove to or support in, the poor house, any such dependent soldier or sailor or his family; the word family here used shall be held to include the

soldier or sailor, his wife, his unmarried minor children living with him and dependent upon him for support, and such other unmarried children of his, dependent upon him for support, who by reason of mental incapacity or physical disability, are unable to provide for themselves; but the town of his settlement shall support them at his own home in the town of his settlement or residence, or in such suitable place other than the poor house, as the Overseer of the town of his settlement may deem right and proper. In case of violation of this section the Overseer of the Poor shall be subject to a fine of twenty-five dollars, and for every day they allow them to remain in such poor house, after reasonable notice, they shall be subject to a further fine of five dollars a day, to be recovered by complaint or indictment. This section shall not be so construed as to deprive Overseers of the Poor of any right to remove and support such dependent soldier or sailor and his family in the town of his settlement, herein provided.

Section 2. This act shall take effect when approved.

Approved March 20, 1907.

STORAGE OF EXPLOSIVES.

On April 11, 1906, the Selectmen, as Assessors, went to Newhall for the annual valuation. On the examination of the property of the Oriental Powder Company we found a large quantity of dynamite and powder stored in old wooden magazines fully saturated with powder and dust in sufficient quantities to cause the total destruction of the building and its contents of dynamite and powder all packed together. A careful inspection was made of each magazine. The amount of dynamite and powder was taken down for valuation.

We found on examination of the town records that the board of Selectmen of 1904 had given the Oriental Powder Co. rights to store 20 tons of dynamite in four old wooden magazines, saturated with powder and dust that had been accumulating for years, located in the open grounds many

of them. We not only found 5 tons in each but some of them had 17½ tons, making in them at different times 3 to 4 times the amount allowed by the regulation. We also found that no board of Selectmen had ever examined the magazines to see if the company was complying with the regulation but left everything to run at its pleasure, to the great liability of total destruction of the property in the vicinity of the magazines. When we were in possession of all the facts we immediately notified the company to comply with the regulations and place the explosives in fire and bullet proof magazines. The company came forward then and asked a permit to store 75 to 150 tons of dynamite in a fire and bullet proof magazine to be located near the old pack house. We carefully considered the matter and told the company that we might be willing to give some storage in magazines to be fire and bullet proof, properly placed and in reasonable quantity but we would not consent to so large a quantity but the company believing we would comply with their request still persisted in their demands so that on Dec. 17, 1906, we gave permission for the storage of 300 pounds only and allowed them until June, 1907, to comply with the regulations. In July, 1907, the agent of the company came before the board and asked that in view of the fact that the company owned a large area of land and large property interests they felt that a reasonable amount of storage should be allowed them. The amount and location to be left to our judgment. We carefully considered the matter and after consultation with the Robinson Mills Co., who was willing for a reasonable amount of storage properly placed, and also with the Androscoggin Pulp Co., who would neither say yes or no but would remain neutral, so if any accident occurred they would be in a position to say they had not consented to the storage; so they would be able to collect of the company in case of an accident.

After mature deliberation and careful thought of the safety of the several corporations and private property owners we consented to the following:

1st The Eastern Dynamite Co. shall pay the town of

Windham one hundred dollars for the expenses of the board of Selectmen in 1904, 1906 and 1907 in counsel fees and the expense of the town officers in making the several regulations which they have complied with as per Treasurer's report

2d. They also shall pay all legal services to assure the Selectmen that the company is held in all cases for all damage in case of any accident under all conditions.

3d If the Selectmen allow storage after the magazines pass inspection the company shall pay a tax on double the amount in value of explosives stored in the magazines.

The above conditions have been complied with. The Eastern Dynamite Co. on Sept. 1, completed 3 concrete and brick magazines, located under the direction of the Selectmen. We inspected them and the company asked for 20 tons in each magazine. We refused and gave permit for 5 tons only. They also have completed 2 more of 5 tons capacity which we have given permission for the storage of the above amount. Each magazine is located behind a hill or deep ravine fully protecting the surrounding property owners from any damage in case of an accident from the storage of explosion. Each magazine is protected from the nearest magazine with a hill or heavy timber between. The board of Selectmen of any town have no power to prevent the transportation of explosives by team or railroad but may make regulations for the transportation and the storage. We fully believe that the regulations as made by us and which we compel to be carefully followed fully guarantee the safety of the people and their property. For fear that the future boards of Selectmen would not be so persistent in seeing that the regulations were fully complied with we have made additional regulations compelling the filing on the first day of each month the amount contained in each magazine located in the town of Windham, to be kept on file in the Selectmen's office for a public record, which has been complied with as follows:

Regulations concerning the keeping in the town of Windham, in the County of Cumberland and the State of Maine, and the transportation from place to place of certain dangerous explosives.

The municipal officers of said town, acting under the provisions of Sec. 20 of Chap. 28 of the Revised Statutes of the State of Maine, have adjudged and hereby do adjudge the following explosive substances dangerous to the lives and to the safety of citizens, to wit:

Giant powder, Atlas powder, dynamite, nitro-glycerine or any compound thereof, and any fulminate, or any substance intended to be used, by exploding or igniting the same, to produce force to propel missiles or to rend apart substances.

AND WE MAKE THE FOLLOWING REGULATIONS:

No 1. No person, unless on military duty in the service of the United States, or of this State, shall keep in any building, place, vessel or vehicle, within one rod of any inhabited dwelling house, any gun powder or any such dangerous explosive substance in quantity exceeding two-fifths of a pound in any way or manner prohibited by

the provisions of any of the following sections, except fixed ammunition for sporting purposes

No 2. All Giant powder, Atlas powder, dynamite, nitro-glycerine or any compound thereof, kept in said Town, shall be kept in original packages, each holding not exceeding fifty pounds, and in magazines so constructed as to be non-combustible by fire and non-penetrable by bullets. And such magazine shall be located either in heavily wooded spots or in deep ravines, to be approved by the Selectmen. And no such magazine shall be within a distance in a direct line of less than 500 feet from any dwelling house, hotel, hall, store, mill, factory or other building in which persons dwell or are engaged in labor or business. And no such magazine shall be within a distance in a direct line of less than 500 feet from any other such magazine.

No 3. No person shall keep in any one location any magazine more than what the Selectmen shall approve of and notice shall be posted in said magazine by them of the quantity to be stored and the amount to be recorded by the Town Clerk of either Giant powder, Atlas powder, dynamite, nitro-glycerine or any compound thereof. And no magazine shall contain more than one variety or kind of said explosive substances.

No 4. No person or persons, association or corporation, engaged in the transportation of passengers in said town, shall knowingly transport from place to place any of the explosive substances named in these regulations, in any vehicle containing or carrying passengers or in any vehicle attached to or connected with any vehicle containing or carrying passengers .

No 5. No person shall deliver to any carrier in said town for transportation from place to place, and no carrier in said town shall knowingly transport from place to place any such explosive substances, unless same be packed and contained in their original packages, nor in any case unless the package containing such explosive substances are plainly marked with the names of such explosive substances and the words "*Explosive—Dangerous.*"

No 6. None of such explosive substances shall be delivered or received in said town for transportation from place to place at any depot or station or upon any platform used by or for the use of the general public. All of such explosive substances in said town as may be lawfully transported from place to place, shall be delivered and received for such transportation at some place or location distant in a direct line not less than five hundred feet from any depot, station or platform used by or for the use of the general public.

No 7. No caps or exploders for the explosion of any of the above adjudged dangerous explosive substances shall be kept in any magazine where such explosive substances are kept, but shall be kept in separate magazines by themselves. And no such caps or exploders shall be transported from place to place with any such explosive substances, but shall be transported separately by themselves.

No 8. Any person or corporation having complied with the above regulations and wishing to offer for sale any of the above explosives shall designate the person or persons to handle the same to be approved by the Selectmen, and the same to be recorded by the Town Clerk and a permit shall be issued to them and no other.

In Testimony Whereof, We hereunto set our hands in our official capacity at the Selectmen's office in said town of Windham this second day of August, A. D., 1907.

H. H. BOODY,
A. KALLOCK,
JOSEPH L. ROBINSON,

Selectmen of the Town of Windham.

PUBLIC NOTICE.

Additional Regulations for the Storage of Explosives in the Town of Windham.

Any person or corporation having built magazines in

the town of Windham for the storage of explosives according to the regulations of August 2, 1907, and having fully complied therewith, shall on the first day of every month commencing on December 1, 1907, render to the Selectmen of Windham an inventory of the amount contained in each magazine of explosives and the kind.

The Selectmen shall keep on file at their office the inventories so received for public record and information.

Given under our hands at Windham, Maine, this seventh day of October, A. D., 1907.

H. H. BOODY,
A. KALLOCK,

Selectmen of Windham.

Windham, Me.,
Sept. 2, 1907.

Mr. Howard C. Mayberry having been appointed by E. J. Dupont, Demours Powder Co. to personally supervise and handle all explosives to and from their magazines, situated at Newhall, Me., in the town of Windham, having full confidence in the said Howard C. Mayberry to fully comply with the regulations made and posted in said town of Windham, on the second day of August, 1907, for the handling and storing of explosives in said town of Windham.

We hereby approve of the appointment of the said Howard C. Mayberry for the said service.

H. H. BOODY,
J. L. ROBINSON,

Selectmen of Windham.

Recorded by John N. Swett, town Clerk of Windham, on Record Book, page 374.

Windham, Me.,
Sept. 2, 1907.

Magazine No. 394, owned by E. J. Dupont Powder Co., located at Newhall, having been examined and approved on Sept. 2, 1907, we hereby give permit for the storage of no more than 5 tons of explosives, to be all of one kind, in said magazine.

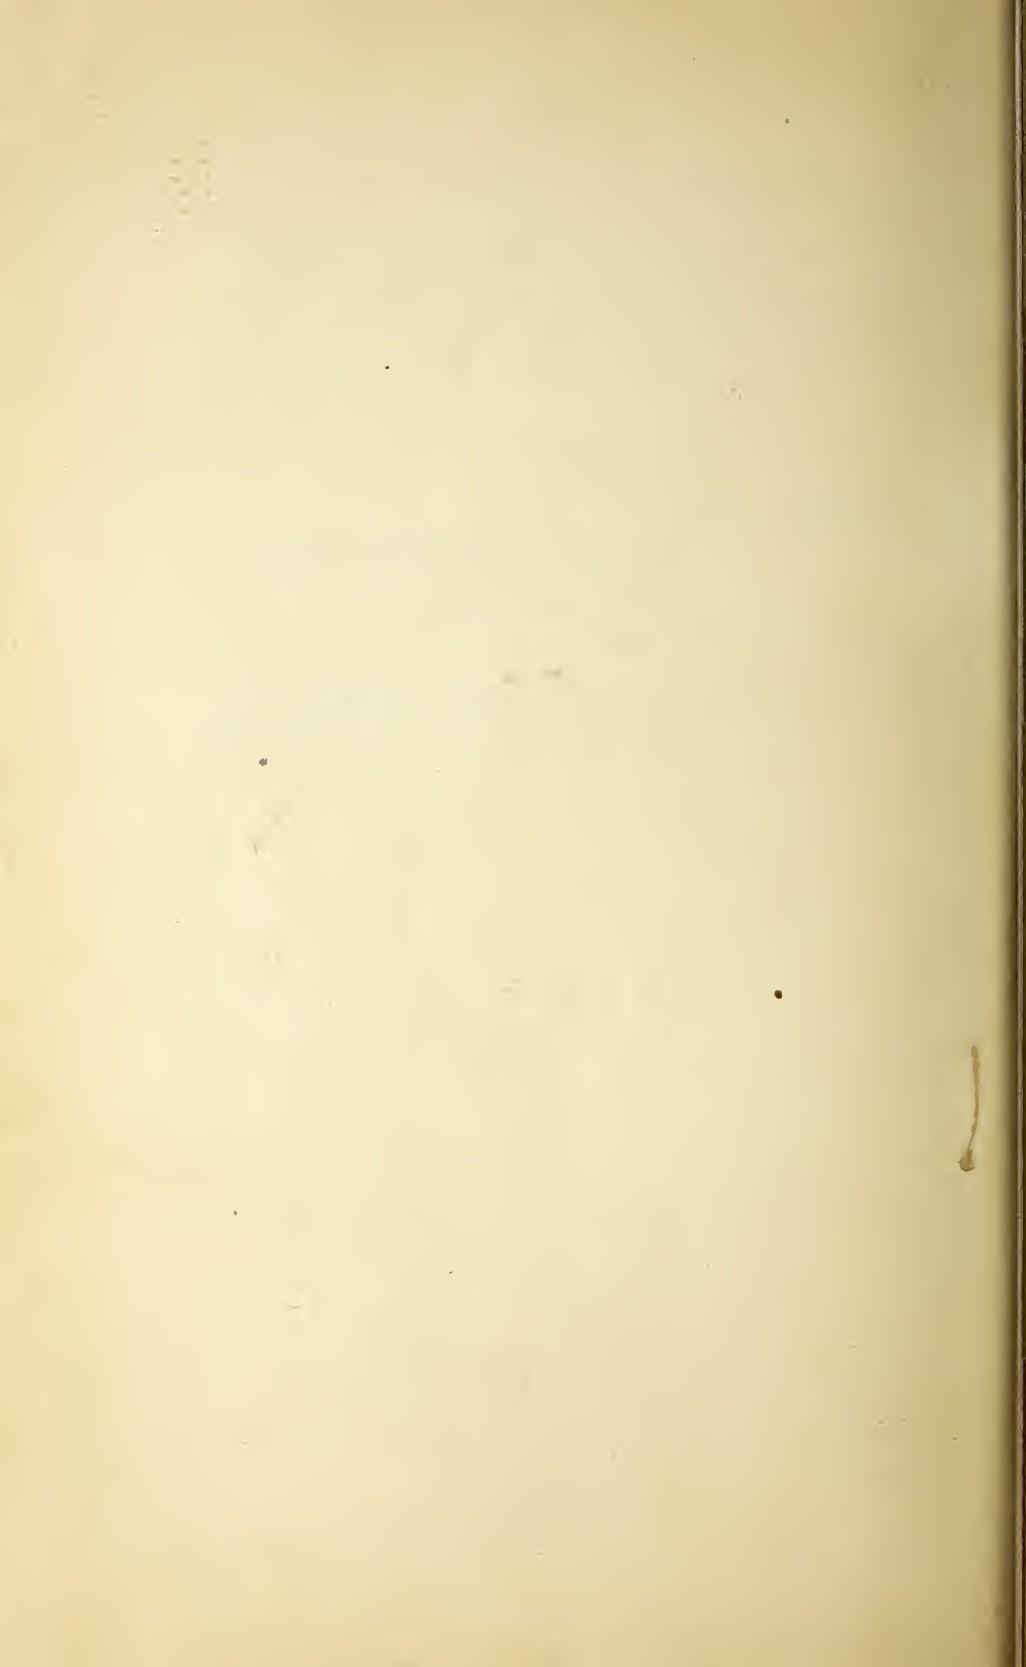

H. H. BOODY,
J. L. ROBINSON,
Selectmen of Windham.

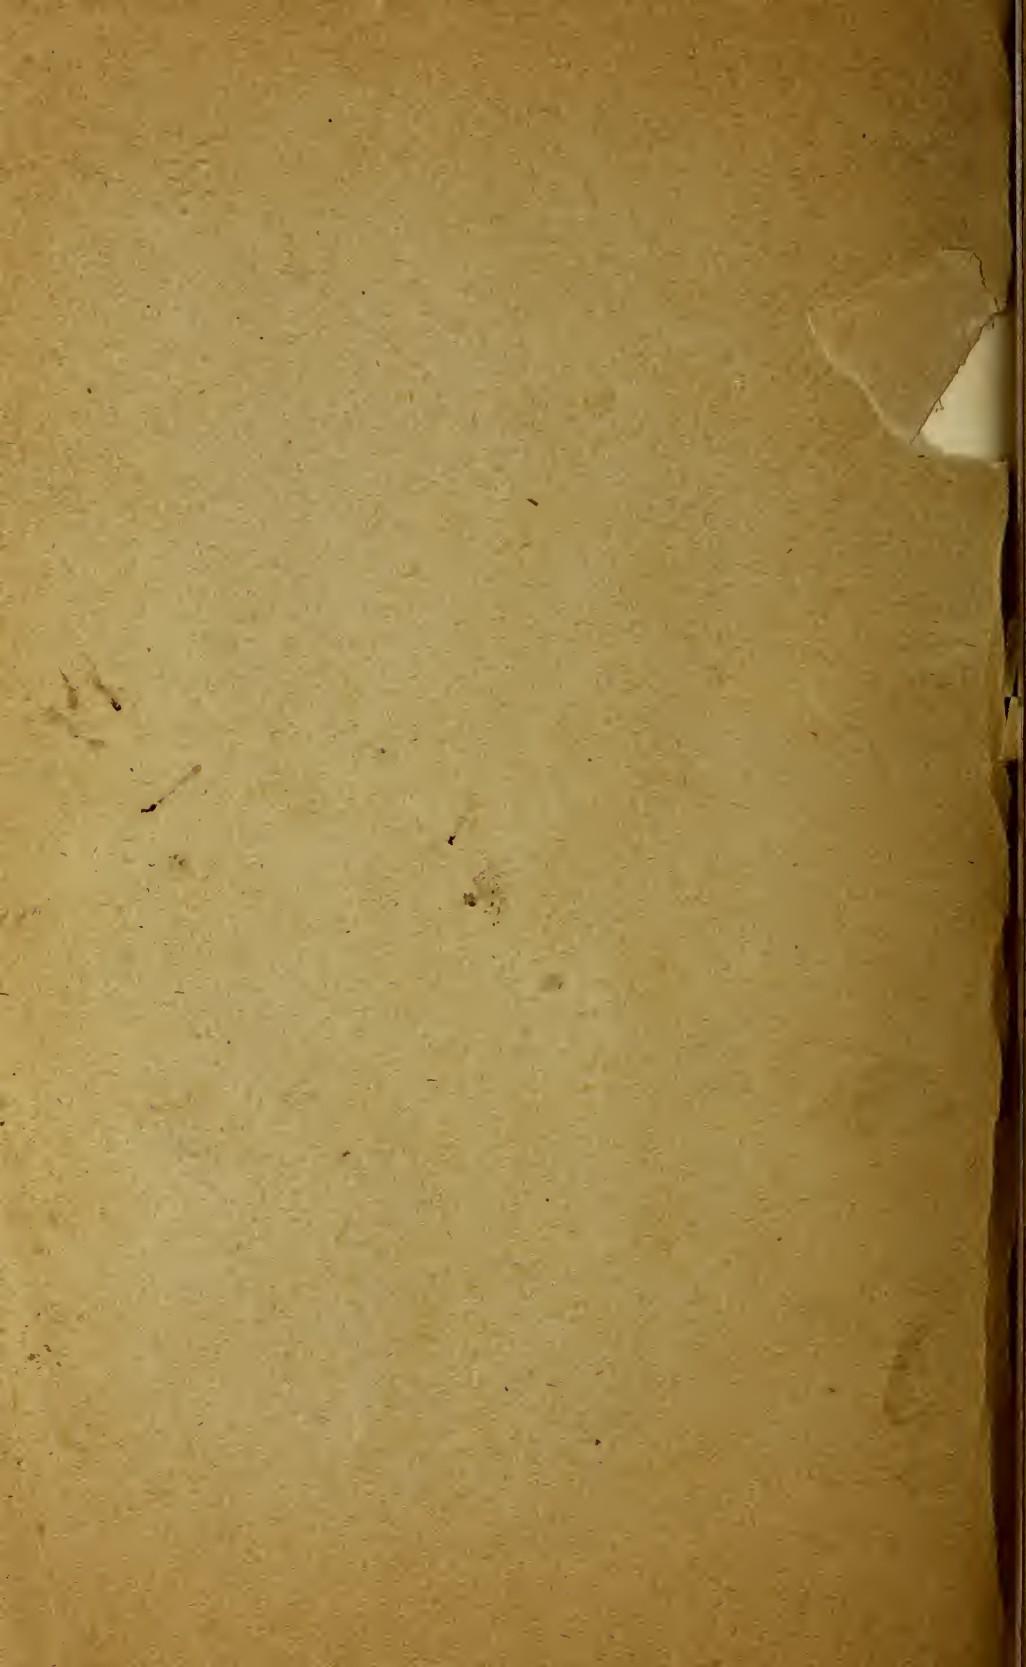

Recorded on Record Book, page 373.

JOHN N. SWETT,
Town Clerk of Windham.

All magazines to the number of 5 which have been inspected are duplicates of the above which is recorded by the town Clerk.

STATE OF MAINE

CUMBERLAND, SS.

*To Samuel Larrabee, a constable in the town of Windham,
in said county.*

GREETING:

In the name of the State of Maine you are hereby required to notify and warn the inhabitants of the said town of Windham, qualified by law to vote in town affairs, to assemble at the town house in said town on Monday, the first day of March A. D. 1909, at nine o'clock in the forenoon, to act on the following articles, to wit:

- 1st. To choose a Moderator to preside at said meeting.
- 2d. To see if the town will vote to elect one or more Road Commissioners.
- 3d. To choose all necessary town officers. Polls to open at 9 o'clock a.m. and close at 1.30 o'clock p.m.
- 4th. To see if the town will vote to accept the report of the town officers.
- 5th. To see what sum of money the town will raise for repair of roads in the several districts.
- 6th. To see what sum of money the town will raise for bridges, culverts and improvements.
- 7th. To see what sum of money the town will raise for the repair of the Windham Center road.
- 8th. To see what sum of money the town will raise for the repair of the Gray and Gorham road.
- 9th. To see if the town will vote yes or no upon the adoption of the provision of Chapter 112 of the Public

Laws of Maine for the year 1907, relating to the appropriation of money necessary to entitle the town to State aid for highways for the year 1909.

10th. To see if the town will raise, appropriate and set apart for the permanent improvements of the main highways within the town, such sum of money as is contemplated and directed by Section 5 of Chapter 112 of the Public Laws of Maine for the year 1907, being the sum of one hundred and forty-five (\$145) dollars.

11th. To see if the town vote to buy one or more road machines, and appropriate money for the same.

12th. To see if the town will vote to buy a pair of horses for the town farm, or to exchange the present pair, and appropriate money for the same,

13th. To see what sum of money the town will raise for support of poor.

14th. To see what sum of money the town will raise for contingent expenses.

15th. To see what sum of money the town will raise to pay Collector's commissions and abatements.

16th. To see what per cent. the town will allow the Collector for collection of taxes.

17th. To see what sum of money the town will raise to pay town officers.

18th. To see what sum of money the town will raise for the observance of Memorial Day, the same to be expended by Larry Post, G. A. R.

19th. To see what the town will vote to pay the Road Commissioners per day, and how much, if anything, for travel.

20th. To see if the town will vote to raise one hundred and forty-six dollars and forty cents (\$146.40) to pay interest on local school fund.

21st. To see what sum of money the town will raise for support of schools.

22d. To see what sum of money the town will raise for support of high school.

23d. To see what sum of money the town will raise for text-books.

24th. To see what sum of money the town will raise for fuel for schools.

25th. To see what sum of money the town will raise for supplies for schools.

26th. To see what sum of money the town will raise for the repair of school buildings.

27th. To see what sum of money the town will raise for janitors' services.

28th. To see if the town will vote to build a school building for use of a high and grammar school at or near Windham Center, and appropriate money for the same, the amount not to exceed eight thousand dollars (\$8,000) for building and lot.

29th. To see what sum of money the town will raise for the fencing and care of cemeteries.

30th. To see if the town will vote to authorize the Selectmen and Treasurer to make a temporary loan in anticipation of taxes if needed.

31st. To see if the town will vote to instruct the Treasurer to pay to the Windham Public Library the sum of fifty dollars (\$50), the same having been appropriated and assessed in the year 1892 for a Public Library Building to be located on the town house lot.

32d. To see what sum of money the town will raise to pay snow bills.

33d. To see if the town will vote to reimburse the treasury for money paid out for brown tail moth nests.

34th. To see what sum of money the town will raise for the extermination of brown tail moth.

35th. To see if the town will vote to appropriate the use of the Kennard and Clark school buildings for the storage of road machinery.

36th. To see if the town will vote to pay Mrs. John N. Swett a sum of money for time and trouble in counting and destroying brown tail moth nests.

The original warrant will close Thursday, February 18, 1909.

GEORGE A. NEWELL,
HOWARD H. BOODY,
EUGENE J. SAWYER, } *Selectmen
of
Windham.*

REPORT OF COMMITTEE.

Report of committee chosen at the annual meeting, March 2, 1908, in regard to the construction of a high school building.

We recommend that a grammar school be established at the center of the town. That the Plains school be discontinued. That the Hill, Friends and Center schools be united. That the Knight and Bodge schools be united. That the Anderson school be discontinued and the scholars from the last named school be transported to South Windham school.

We also recommend that a school building be constructed for the use of a high and grammar school, at or near Windham Center, and an appropriation, not to exceed eight thousand dollars (\$8000), be made for the construction of the same.

THOMAS VARNEY,
JOHN C. NICHOLS,
JAMES E. AIKINS,

JOHN N. SWETT, *Treasurer.*

Auditor's Report

I hereby certify that I have examined the books and papers from which the foregoing report of the town officers of Windham is made and find them correct in compilation and properly vouched.

All orders received and paid by the Treasurer are cancelled and placed on file in the Selectmen's office.

Respectfully,

FRED S. HAWKES, *Auditor.*

School Report

To the Superintending School Committee and Citizens of Windham—Gentlemen: It becomes the duty and pleasure of your Superintendent to submit at this time the following report of the condition and needs of the schools of Windham:

STATISTICAL.

Whole number of pupils in town between the ages of 5 and 21, April 1, 1908,	510
Whole number attending Spring Term,	359
Average number attending Spring Term,	302
Whole number attending Fall Term,	348
Average number attending Fall Term,	314
Whole number attending Winter Term,	326
Average number attending Winter Term,	284

*After four weeks of work, Miss Burnham was obliged to sever her connection with the John A. Andrew Primary on account of poor health. She was a faithful and very efficient teacher; her resignation was accepted with regret. Miss M. J. Montgomery substituted for the remainder of the term, at a salary of \$10.00 a week, which accounts for the discrepancy between the "Wages per week" and the "Term Salary" indicated in the tabular report.

Miss Lucy Powers was elected to the position left vacant by the resignation of Miss Montgomery; and her re-election for the winter term was sufficient indication of the estimate placed upon her.

A few other changes were made during the year; these are fully indicated in the tabular report.

TEACHERS AND THEIR WORK.

It is a well known fact that the success of any school depends very largely upon the character and efficiency of the teacher. We do not intend to exempt the pupil from his share of responsibility; he has his work to do and no one can advance his interests against his will; and yet, the teacher may do much to encourage and inspire a pupil who may naturally be somewhat indolent. Efficiency is more than scholarship and power as a disciplinarian; these characteristics are certainly a part of it; but, to be truly efficient, a teacher must thoroughly enjoy her work, she must be enthusiastic over it and must count nothing of greater importance than to bring about a healthy development of the child's mind. She should read many educational books and magazines and be willing, yes, more than willing, to forego some of her pleasures, outside of the school-room, in order that she may assume the duties of the following day with a broader view, a deeper interest and a greater hope.

Our teachers have worked hard to advance the interests of the pupils intrusted to their care and to raise the standard of the schools. Generally speaking, the past year has been a profitable one.

Shall we not encourage our teachers, not only by speaking words of appreciation, but by visiting the schools often, and especially, by securing regular attendance on the part of those pupils over whom we have immediate control.

Several of our teachers attended a summer school at Gorham, Me., where instruction was given not only in the subjects generally taught, but also in the latest and best methods of school management.

These summer sessions offered by the State are of great value to the teacher who would become more efficient, and we earnestly hope that, in future, they may be more generally attended by those who are employed in our schools.

PUPILS AND THEIR WORK.

The work of the pupils in our schools is more or less unbalanced, there being a high degree of efficiency in some branches and a corresponding degree of deficiency in others. This has been brought about partly by allowing pupils to spend too much time upon those subjects in which they are naturally interested, to the neglect of those of less attractiveness, but, oftentimes, of more importance.

Generally speaking, the most glaring defects exist in English and Reading, the latter of which needs special consideration, as many of the failures along other lines of school work result partly from the inability of the pupil to read intelligently.

The cause of this unsatisfactory condition with respect to reading is easily seen:—as soon as the pupil has finished the primer (he has but one), he is pushed forward into the First Reader and reads or tries to read both books during the first year. The second year he begins the Second Reader, struggles through it and passes to the Third, where the struggle becomes even more hopeless. And so the process goes on from one grade-book to another, with little or no supplementary reading, until, at the age of ten or eleven, he finds himself face to face with a page, the subject matter of which the brightest of our high school boys or girls would find it hard to digest. He comes to the recitation with little interest and less hope, pounds his way through the paragraphs assigned to him, and hastens back to his seat, there to seek relief in Common Fractions where words are few.

This difficulty in reading should be obviated by furnishing the pupil with a large amount of supplementary reading during the early part of his course.

Several primers by different authors should be employed during the first year, and no pupil should be expected to begin the First Reader before the opening of his second year in school.

We realize that the introduction of a larger amount of supplementary reading would necessitate the expendi-

ture of a large amount of money, but we believe that the result would more than justify the additional expense.

TEXT-BOOKS.

The expenditure for text-books for the past year has been larger than that of previous years, owing partly to the remarkable increase in the membership of our high school and partly to the fact that a large number of Jones Readers were necessary to complete the change begun two years ago.

Referring again to our high school, the records show that we have nearly 45 per cent. more pupils in our high school now than at any time last year. The books, necessary to supply these additional pupils, together with those purchased to replace wornout texts, have cost us nearly one-third of the entire appropriation. We believe, however, that this money has been well expended and that the investment will yield large returns as long as the present high grade of work shall continue.

The Arithmetics should be exchanged next year; consequently, an increase in the appropriation should be made.

SUPPLIES.

Our records show that, while we have expended somewhat more than was appropriated for supplies, we still have a balance to our credit, owing to a large unexpended balance from last year.

The usual appropriation will be sufficient to meet the demands of next year, as we have a balance of supplies on hand in addition to the cash balance.

HIGH SCHOOL.

We are exceedingly gratified to note the increasing interest and confidence in our high school.

The comparatively large attendance, the unflagging energy displayed by the teachers, the marked interest shown by the pupils, and the cheerful co-operation of all concerned are indications of a strong high school spirit.

We feel that this school is enjoying a period of more than usual prosperity and there is no reason why we can not bring it well up among the leading high schools of the State, if we but hold the pupils in our common schools until they are properly fitted to enter it.

I trust that I may be pardoned for expressing an opinion, at this time, on the matter of the high school grades at No. Windham and at So. Windham. Doubtless, much can be said on both sides, but it seems to me that it might be better to eliminate those grades and have the pupils enter the high school at the beginning of the course. It would certainly be better for the high school and less expensive for the town.

SCHOOL-HOUSES.

Some of our school-houses were in poor condition at the opening of the year, but they have been properly repaired and are now in good condition, aside from a very few that need minor repairs.

It is not my purpose to discuss the situation with respect to a new school-building at the Center, as your committee is fully competent to make valuable recommendations. There seems to be no room for doubt but that a building of proper size and character is very essential, if we are to reach the educational standard toward which we are striving.

IN GENERAL.

At the opening of the year the general conditions existing in the schools were such as to reflect much credit upon those who had previously had charge of them. Many of the so-called mixed schools had been partially graded and a course of study introduced.

During this year an attempt has been made to complete the work of grading and special weekly or monthly plans have been made out with a view to making each week's work count as a definite part of a well-balanced course.

A new course of study has been adopted as the standard high school course. This course is somewhat broader than the old one, and gives the pupil more freedom of choice during the last years of his school work.

We feel justified in saying that our schools are now fairly started in the right direction; nevertheless, there is much yet to be done if we are to properly equip our boys and girls for successful competition in the various pursuits of life.

I desire at this time to express my appreciation for the unfailing support of the Superintending School Committee, for the hearty co-operation of teachers, and for the courtesy and friendliness shown me by those citizens of Windham whom it has been my good fortune to meet.

It is recommended that the following amounts be appropriated at the next annual town meeting.

Common schools,	\$3,000 00
High school,	900 00
Text-books,	350 00
Supplies,	200 00
Janitors.	200 00
Fuel,	350 00
Repairs.	200 00

Respectfully submitted,

J. W. LAMBERT, *Superintendent.*

STATE OF MAINE

CUMBERLAND, SS.

*To Samuel Larrabee, a constable in the town of Windham,
in said county.*

GREETING:

In the name of the State of Maine you are hereby required to notify and warn the inhabitants of the said town of Windham, qualified by law to vote in town affairs, to assemble at the town house in said town on Monday, the seventh day of March, A. D. 1910, at nine o'clock in the forenoon, to act on the following articles, to wit:

- 1st. To choose a Moderator to preside at said meeting.
- 2d. To see if the town will vote to elect one or more Road Commissioners.
- 3d. To choose all necessary town officers, Polls to open at 9 o'clock A.M. and close at 1.30 o'clock P.M.
- 4th. To see if the town will vote to accept the report of the town officers.
- 5th. To see what sum of money the town will raise for the repair of roads.
- 6th. To see what sum of money the town will raise for bridges and culverts.
- 7th. To see if the town will vote "yes" or "no" upon the adoption of the provision of Chapter 112 of the Public Laws of Maine for the year 1907, relating to the appropriation of money necessary to entitle the town to State aid for highways for the year 1910.
- 8th. To see if the town will raise, appropriate and set

apart for the permanent improvements of the main highways within the town, such sum of money as is contemplated and directed by Section 5 of Chapter 112 of the Public Laws of Maine for the year 1907, being the sum of one hundred and forty-five (\$145) dollars.

9th. To see what sum of money the town will raise for support of poor.

10th. To see what sum of money the town will raise for contingent expenses.

11th. To see what sum of money the town will raise to pay Collector's commissions and abatements.

12th. To see what per cent. the town will allow the Collector for collection of taxes.

13th. To see what sum of money the town will raise to pay town officers.

14th. To see what sum of money the town will raise for the observance of Memorial day, the same to be expended by Larry Post, No. 57, G. A. R.

15th. To see what the town will vote to pay the Road Commissioners per day, and how much, if anything, for travel.

16th. To see if the town will vote to raise one hundred and forty-six dollars and forty cents (\$146.40) to pay interest on local school fund.

17th. To see what sum of money the town will raise for support of schools.

18th. To see what sum of money the town will raise for support of high school.

19th. To see what sum of money the town will raise for text-books.

20th. To see what sum of money the town will raise for fuel for schools.

21st. To see what sum of money the town will raise for supplies for schools.

22d. To see what sum of money the town will raise for repair of school buildings.

23d. To see what sum of money the town will raise for janitors' services.

24th. To see what sum of money the town will raise for the care of cemeteries.

25th. To see if the town will vote to authorize the Selectmen and Treasurer to make a temporary loan in anticipation of taxes, if needed.

26th. To see what sum of money the town will raise to pay snow bills.

27th. To see what sum of money the town will raise to destroy brown-tail moth nests in the highways.

28th. To see if the town will vote to purchase a lot at or near Windham Center for the location of a school-house to accommodate the school known as the Center school, now located over F. S. Hawkes' store, and appropriate money for the same.

29th. To see if the town will vote to remove the White school-building from its present location and place it upon the lot purchased according to Article 28, and appropriate money for the same, or to take any action relative thereto.

30th. To see if the town will vote to purchase a lot at or near Windham Center, and to erect thereon, furnish and equip a modern high school building, and appropriate money for the same.

31st. To see if the town will vote to raise one hundred and twenty-five dollars (\$125), more or less, for the purchase of reference works for the high school.

32d. To see if the town will vote to instruct the S. S. Committee to open the Kennard school the present year.

33d. To see if the town will vote to erect headstones over the graves of those who died on the poor farm and were buried at the town's expense, and appropriate money for the same.

34th. To see what instructions the town will give the Assessors in regard to the valuation of the town.

35th. To see if the town will vote to raise the sum of one hundred and fifty dollars to enlarge and fence the North Windham cemetery.

The original warrant will close Thursday, Feb. 24, 1910.

JOHN N. SWETT, *Treasurer.*

Auditor's Report

I hereby certify that I have examined the books and papers from which the foregoing report of the Town Officers of Windham is made, and find them correct in computation and properly vouched.

All orders received and paid by the Treasurer have been canceled and placed on file in the office of the Selectmen.

I also certify that the two notes given by the Treasurer and Selectmen and agreeable to vote of the town, for temporary loan of fifteen hundred and twenty-five hundred dollars, respectively, have been paid and said notes destroyed by Treasurer in my presence and in the presence of the Selectmen.

Respectfully,

FRED S. HAWKES, *Auditor.*

Windham, February 9, 1910.

School Report

To the Superintending School Committee and Citizens of Windham:

GENTLEMEN:—It becomes the duty and pleasure of your Superintendent to submit at this time his second annual report of the condition and needs of the schools of Windham:

STATISTICAL

Whole number of pupils in town between the ages of 5 and 21, April 1, 1909,	495
Whole number attending Spring Term,	369
Average number attending Spring Term,	311
Whole number attending Fall Term,	364
Average number attending Fall Term,	314
Whole number attending Winter Term,	340
Average number attending Winter Term,	294

TEACHERS AND THEIR WORK

We have had some difficulty during the past year in securing experienced teachers; yet the work done in general will compare very favorably with that of other towns.

We feel that our teachers are becoming more efficient through an increased amount of outside preparation; and that they are seeing more clearly the advantage of being free from the text-book habit. We hope that improvement will continue along this line, for too frequent use of the text-book by the teacher kills the spirit of the recitation.

We have noticed that wherever we find a teacher who is free from the text-book habit, there we see pupils who

are alive, energetic, enthusiastic, using eyes and ears in the hope of learning that which, they are sure, their teacher already knows.

Our teachers are working hard, many of them for less salary than they could obtain elsewhere; they should receive from us words of encouragement and hope. The attitude of the parents towards the school and its teacher oftentimes determines very largely its success or its failure. If your children are doing well in school, call upon the teacher, express your appreciation of her work, visit the school and thus show your interest in it. If, on the other hand, you are not satisfied with the progress made, talk the matter over with all concerned, see that your children are in school regularly, and, before you say:—"Our teacher is a failure," ask and answer this question for yourselves:—"Are we doing all we can to make her a success?"

PUPILS AND THEIR WORK

The past year has been characterized by careful attention to school work on the part of a large majority of our pupils. Much attention has been given to reading, especially in the lower grades, and the results are highly satisfactory. We are now emphasizing composition work, including letter writing of various kinds, believing that every boy and girl should be able to speak and write with a fair degree of precision before reaching the High School. We should concern ourselves next with the teaching of number-work in the lower grades.

We fully realize that our teachers, especially those employed in the mixed schools, are carrying heavy burdens and that the upper grades are more dependent on the teacher than they ought to be; nevertheless, if we are to make those grades any less dependent, in future, we must devote more time and energy to a drill on the various combinations of numbers, as set forth in the Course of Study for the primary grades.

We regret to say that the average attendance for the past year has hardly been up to the standard. Here, again,

we appeal to all who have pupils under their care to see that they are kept in school every school day, unless confined to the house by sickness.

Corporal punishment has been necessary in only a few instances, a fact that speaks well for our boys and girls. In cases where it has been employed, it is only fair to the teacher to say that she was fully justified in the act.

TEXT-BOOKS

In order to keep within our appropriation for free text-books, we have been obliged to practice strict economy; oftentimes removing from a school all books on certain subjects which were not then in actual service, and distributing them elsewhere in order to save buying. This matter of keeping books in constant use by circulation is all right up to a certain point, but beyond that the practice proves detrimental, inasmuch as it delays the work of pupils who may enter the school later in the term. Every school should have a small surplus of authorized texts on each of the subjects in order that no pupil may be placed at a disadvantage by waiting until the superintendent may be able to supply the proper text.

A change in arithmetics was begun this year, the Wentworth's Practical being adopted in place of the Nichols'. This change should be completed during the coming year. On this account, the appropriation should be still further increased.

SUPPLIES

Our expenditure for supplies has been somewhat larger than in previous years. This may be accounted for in part by the fact that a larger amount of composition work has been done. In many cases permanent note-books have also been kept by the pupil. We believe the practice to be a good one, as it tends to increase the interest, and, when properly supervised by the teacher, it leads to a greater degree of neatness and care in the arrangement of the work.

The amount of busy work for the pupils of the primary grades has also been somewhat increased; the additional cost in this direction, however, has been comparatively small.

The appropriation for supplies should be increased.

HIGH SCHOOL

It gives us great pleasure to state that our expectations regarding the work of the High School have been fully realized. Both teachers and pupils have labored faithfully and efficiently and the results are highly satisfactory considering the disadvantages against which all have been obliged to struggle. Poor light, poor ventilation, poor laboratory accommodations and a total lack of reference works are but a few of the drawbacks that present themselves. And yet, we have seen no slackening of effort and have heard no word of complaint on the part of the teachers. Are the bright boys and girls of Windham getting all they need, all they deserve in the way of a High School training? Is it true economy to hire efficient teachers (we want no others) to labor where much of their service is lost because of adverse conditions? Does the High School appeal to you as a worthy institution? Then give it a home.

Your attention is called to the report of Principal Henderson, which is made a part of the School Report.

SCHOOL HOUSES

With a few exceptions the school houses throughout the town are in very good repair.

It was thought best to confine the work in the way of improvements and repairs to a few buildings and to expend a sum sufficient to put those buildings into proper condition. The J. A. Andrew school building has been quite thoroughly repaired inside and now presents an attractive appearance. A few other buildings will need attention next year, for which a liberal appropriation should be made.

THE CENTER SCHOOL

Some action should be taken relative to a building for the accommodation of this school. Would it not be well to purchase a lot at the Center and remove the White school building, so-called, from its present location to the lot purchased? We already have an option on a lot at a figure less than seventy-five (\$75.00) dollars; and the cost of moving the White building would not be very great. Such a plan would obviate the difficulty which now obtains at the Center, while no injury would be done the White neighborhood, since it does not appear that a school building will be needed there, at least for a number of years.

IN GENERAL

During the past year our general plan has been to adhere more strictly to the matter of gradation, to broaden the course in the primary department, especially in reading and English, to increase the amount of composition work throughout the grades and to so correlate the whole as to bring about a steady advancement by easy stages.

In closing, I wish to express my appreciation for the willing co-operation of our teachers, the constant support of the S. S. Committee and also for the cordial treatment accorded me by others who are interested in the schools of Windham.

It is recommended that the following amounts be appropriated at the next annual town meeting:

Common Schools,	\$1,800 00
High School,	1,000 00
Text-books,	350 00
Supplies,	350 00
Janitors,	350 00
Fuel,	375 00
Repairs,	400 00

Respectfully submitted,

J. W. LAMBERT, *Supt.*

Superintendent J. W. Lambert:

DEAR SIR—I desire to submit to you at this time a brief report concerning the condition and needs of the Windham High School.

The present year has been an unusually successful one, both from the standpoint of attendance and also in regard to the amount and the quality of the work accomplished. I have been much pleased with the increased interest in study manifested by the pupils, as well as by their more regular and punctual attendance. The new course in book-keeping, and the introduction of laboratory work in physics and chemistry have proved to be most interesting and instructive.

Foremost among our present needs is a set of encyclopedias or reference books, to enable the pupil to do a certain amount of research work, and to consult authority other than that of the text-book. The school needs also

Latin and French lexicons, and supplementary books to aid in the teaching of English and History.

Our greater but not less pressing needs are an additional teacher and a new school building. The High School has outgrown its present quarters. Even to a casual visitor this fact is apparent, and when one stops to consider the amount of work that must be done to fulfill the State and college requirements, the inadequacy of our present equipment becomes more obvious. The question of a new building arises not from pride, but from utility. Clearly our teaching facilities must be improved if the boys and girls of Windham are to take their places among those of other towns, and, indeed, this should be their privilege!

I take this opportunity to thank you for your ever intelligent and kindly criticism, and to express to the members of the School Board, and to the townspeople in general, my appreciation of their friendly interest and cordial support.

Very truly yours,

OLIVER J. B. HENDERSON.

Windham, Maine, January 31, 1910.
